- (1) Newark Beth Israel Medical Center is licensed for 653 beds, 156 of which are licensed for Children's Hospital of New Jersey at Newark Beth Israel Medical Center. For presentation purposes, these 156 beds are included in the licensed bed complement for both Newark Beth Israel Medical Center and it's designated Children's Hospital.
- (2) For presentation purposes, the 45 Transitional Care beds located at the general acute care hospitals are included in the licensed bed complements for both Clara Maass Medical Center and Community Medical Center.
- (3) Robert Wood Johnson University Hospital is licensed for 614 beds, 79 of which are licensed for The Bristol-Myers Squibb Children's Hospital. For presentation purposes, these 79 beds are included in the licensed bed complement for both Robert Wood Johnson University Hospital and its designated Children's Hospital. Robert Wood Johnson University Hospital has been granted temporary approval from the Department of Health to operate an additional 26 neonatal bassinets not included in the count.
- (4) Monmouth Medical Center is licensed for 514 beds, 70 of which are licensed for The Unterberg Children's Hospital at Monmouth Medical Center. For presentation purposes, these 70 beds are included in the licensed bed complement for both Monmouth Medical Center and its designated Children's Hospital.
- (5) Monmouth Medical Center, Southern Campus is licensed for 241 beds, 60 of which are psychiatric beds located at Barnabas Health Behavioral Health Center. For presentation purposes, these 60 beds are included in the licensed bed complements of both Monmouth Medical Center, Southern Campus and Barnabas Health Behavioral Health Center.
- (6) These licensed beds represent pediatric long term care and rehabilitation beds. Children's Specialized Hospital operates at multiple locations in New Jersey, including the long term care beds in Mountainside and Toms River, New Jersey.
- (7) Trinitas Regional Medical Center is licensed for 541 beds, 124 of which are long term and sub acute care. For presentation purposes, these 124 beds are included in the licensed bed complement of Trinitas Regional Medical Center.

RWJBARNABAS HEALTH MANAGEMENT'S DISCUSSION AND ANALYSIS

RWJBarnabas Health's Vision, Mission and Values

At the core of RWJ Barnabas Health's (the Corporation or RWJBH) mission is the evolution of the enterprise from one of a "health care" company to that of an organization dedicated to "health." As part of a comprehensive strategic planning process, Vision, Mission and Values statements were created to drive the enterprise forward. These statements were developed using the strong foundation already in place and with an understanding that future success on behalf of our communities can be achieved only through bold vision and a renewed spirit of collaboration, all with a foundation in academic medicine. Moreover, the values were developed as part of a multi-year initiative to advance RWJBH as a "high reliability organization," committed to providing only the safest, most effective clinical care.

Our Organization

RWJBH is the largest, most comprehensive academic health care system in New Jersey, with a service area that spans eight of the most populous counties covering over five million people. The Corporation is also New Jersey's market share leader across every major service line and the leading provider of tertiary care services. The system includes twelve acute care hospitals, three acute care children's hospitals and a leading pediatric rehabilitation hospital with a network of outpatient centers, a freestanding 100-bed behavioral health center, two trauma centers, a satellite emergency department, ambulatory care centers, geriatric centers, the state's largest behavioral health network, comprehensive home care and hospice programs, fitness and wellness and physical therapy centers, retail pharmacy services, a medical group, multi-site imaging centers and an accountable care organization. In meeting its mission of creating healthier communities, the Corporation seeks to provide high quality clinical care, address the clinical and social determinants of health, improve health outcomes and promote health equity.

On January 1, 2022, the Corporation, Trinitas Regional Medical Center (Trinitas) and Trinitas Health (TH) completed an affiliation transaction, whereby the Corporation replaced TH as the sole member of Trinitas. Together, both organizations have been able to increase access to high-quality healthcare in the northern and central New Jersey regions, and expand outreach to underserved communities. This includes a specific focus on cardiac care, oncology, emergency services, renal care/dialysis, women's health and wound care, as well as behavioral health services and others.

COVID-19

On March 11, 2020, the World Health Organization declared the COVID-19 outbreak a pandemic. The pandemic adversely affected the Corporation's results of operations during 2020 and continues to affect the Corporation's results through 2022. However, the Corporation experienced a gradual and steady recovery in volumes in 2021 as compared to 2020. There was a substantial spike in COVID-19 cases in December 2021 and January 2022 due to Delta and Omicron variants. This surge resulted in a temporary slowdown or pause on elective surgical procedures at certain hospitals. In January, cases in New Jersey and within our hospitals dropped significantly and volumes were again recovering. However, new, more transmittable variants have surfaced since the January surge that have slowed the rate of recovery. Over the past several months, the Corporation experienced the "tripledemic" surge that much of New Jersey experienced which is finally waning, with rates of COVID-19, influenza and RSV easing within our communities. After three years of an unprecedented public health response, the COVID-19 federal public health emergency will officially end on May 11, 2023.

RW.JBARNABAS HEALTH

MANAGEMENT'S DISCUSSION AND ANALYSIS, cont.

The Corporation's response to the COVID-19 pandemic continues to require additional staff and supply resources. Supply chain disruptions, including shortages, delays and significant increases in the price of medical supplies, pharmaceuticals and personal protective equipment, have impacted, and are expected to continue to impact, the Corporation's operating costs. Staffing shortages resulting from staff COVID-19 absences and industry wide shortages in certain clinical specialties and other factors have resulted in increased labor costs and investments in employee retention and other programs. These events are expected to continue in the near future.

The Corporation has received grants from the Coronavirus Aid, Relief and Economic Security (CARES) Act Provider Relief Fund based on various criteria. Under current guidelines issued by the US Department of Health and Human Services (HHS), these funds can be used to cover certain COVID-19 related costs and revenue losses. Through December 31, 2022, the Corporation received approximately \$684,000 in relief funds. During the years ended December 31, 2022 and 2021, \$48,143 and \$65,110 were recognized as revenue. As of December 31, 2022, all relief funds have been recognized to revenue.

The Corporation has continued to provide programs and services to assist the State of New Jersey and the communities it serves in battling the pandemic at substantial costs. Some of these programs are eligible for support from the Federal Emergency Management Agency (FEMA). For the years ended December 31, 2022 and 2021, the Corporation recognized \$28,907 and \$93,817, respectively, of FEMA funds within other revenue in the consolidated statements of operations. In addition, the Corporation recognized \$9,358 of FEMA funds within other changes in net assets without donor restrictions for capital reimbursement for the year ended December 31, 2022. Management continues to evaluate programs and services for alignment with funding opportunities.

In addition to the CARES Act funding and FEMA, the Corporation received Medicare advance payments of approximately \$556,000 during 2020. Medicare started recouping these advances in April 2021 with the full amount repaid by September 30, 2022.

The Corporation has also elected to defer the deposit and payment of the employer's share of Social Security taxes allowed under the CARES Act, which requires payment of 50% of the deferred taxes by December 31, 2021 and 50% by December 31, 2022. The Corporation had accumulated approximately \$88,000 of deferred employer payroll taxes. At December 31, 2022, the full amount was repaid.

Management remains focused on the restoration of operating results to pre-COVID-19 levels through various initiatives, including those focused on access and additional revenue opportunities. Access strategies include providing new and enhanced facilities, building a more diversified business model, physician recruitment efforts, and continued expansion of services in response to community needs. In addition, there is continued focus on expense reductions through operational efficiency efforts and supply chain initiatives. The Corporation continues to evaluate and invest in strategic capital projects and technology to facilitate recovery and maintain a competitive advantage regarding patient and provider satisfaction and retention. Management also continues to monitor strategic capital needs in relation to operations and capital market conditions affecting investment returns, as well as fundraising and debt capacity.

The Corporation is committed to investment in its people. Our continuing leadership role comes from the support of our employees and physicians. The demand for healthcare in the state and across the country continues to increase. Nurses are in high demand and in short supply. The increased amount of competition has forced a refinement of our internal hiring processes to expedite our ability to acquire top nursing talent. We have instituted nurse retention programs that focus on professional development through enhanced tuition assistance programs, more flexible work schedules to provide work/life balance, retention and sign-

RWJBARNABAS HEALTH

MANAGEMENT'S DISCUSSION AND ANALYSIS, cont.

on bonuses, and market adjustments to remain in the top tier in a competitive compensation market and to remain in the forefront of the communities we serve.

Vaccinations

The Corporation has provided more than 530,000 vaccinations across the State, including those delivered at "mega-sites", at hospital-based clinics and community locations staffed and supported by the Corporation. Beyond ensuring vaccination among the public, the Corporation conducted an aggressive internal campaign to vaccinate all staff and physicians. Most of the eligible staff, more than 95%, received the vaccination and booster.

COVID-19 Treatments

The COVID-19 pandemic led to therapeutic innovation for not only the prevention, but also treatment of COVID-19. RWJBH worked with industry partners, state, and federal government liaisons along with subject matter experts within our organization to allow for the administration of COVID-19 therapeutics as soon as they were available. Because of these proactive efforts prior to and immediately after the Emergency Use Authorization (EUA), RWJBH was one of the first sites in New Jersey to offer monoclonal antibodies (MAB) for COVID-19. Pharmacy Infectious Diseases, the Emergency Department, and the RWJBH Medical Group worked together to provide a safe and streamlined approach for patients who met criteria to receive MABs. These treatments allow patients to recover safely at home with telemedicine follow-up, enabling our inpatient units to focus its care on patients at a higher acuity level. To date, RWJBH facilities have administered MABs to over 28,000 patients, preventing hospitalizations in 96% of recipients.

In December 2021, the FDA approved under EUA, anti-viral therapies to treat COVID-19. The system's Infectious Disease Committee develops and updates COVID-19 treatment algorithms incorporating anti-viral therapy options, screening, and processes to ensure patients can be treated with Paxlovid if appropriate.

Partnership with Rutgers, the State University of New Jersey - Realizing our Academic Vision

The 2018 Partnership between the Corporation and Rutgers formed the largest and most comprehensive academic health system in New Jersey and created a platform to advance clinical care, conduct innovative research, and educate the next generation of healthcare providers. The Corporation and Rutgers have attracted, and will continue to attract, clinicians, researchers, teachers, and students from across the globe that will help fill unmet needs across the Corporation's service area as the partnership continues to grow and develop. In total, more than one billion dollars over 20 years will be invested to expand the education and research mission of the integrated academic health system.

A key element of the transformative efforts of the Partnership was to form a comprehensive medical group comprised of employed physicians and other health care professionals from the Corporation and Rutgers Health. Through the execution of an Integrated Practice Agreement (IPA) effective July 1, 2020, Rutgers and the Corporation have begun to integrate the clinical services provided within the Robert Wood Johnson Medical School in New Brunswick and the Corporation's medical group practices, creating one of the largest physician organizations in the country.

RWJBARNABAS HEALTH

MANAGEMENT'S DISCUSSION AND ANALYSIS, cont.

The Corporation has brought the resources of the State's largest academic health system to improve the lives of its population by:

- Advancing and deploying health science innovation;
- Increasing accessibility to primary and specialty physicians and clinicians across the region;
- Developing and expanding Centers of Excellence across a number of clinical specialties;
- Dedicating significant, collective resources to education, research, and health improvement;
- Retaining leading clinical and academic faculty to build and expand clinical and research capabilities across New Jersey;
- Focusing on the recruitment of new high-caliber principal investigators across the service area dramatically increasing its research portfolio;
- Providing financial support earmarked to encourage residents & fellows to remain in and provide care to residents of New Jersey;
- Increasing opportunities to train its medical, dental, nursing, pharmacy, and other students in interprofessional clinical environments; and
- Expanding access to clinical trials, bringing the newest and most promising treatments to patients across New Jersey.

Leader in Translational Science

In March 2019, a multi-university team led by Rutgers was awarded a National Institute of Health (NIH) grant for \$29,000 over five years for joining the NIH's Clinical and Translational Science Awards Program. The ultimate goal of the grant is to expedite and expand the delivery of evidence-based treatment to our patients. The award was the first in New Jersey and will increase access to clinical trials, help introduce new therapies, and create opportunities for increased funding. CTSA awards support a national network of more than 50 medical research institutions nationwide that collaborate to speed the translation of research discoveries into improved patient care. It enables research teams, including scientists, patient advocacy organizations and community members, to tackle system-wide scientific and operational problems in clinical and translational research that no one team can overcome. The ultimate goal with this grant is to bring more evidence-based treatment to more patients more quickly. That means shortening the time between basic science breakthroughs and life-saving clinical treatments. The Corporation funded some of the recruitments that were pivotal to making this award occur, which in the end will help the Corporation and Rutgers to enhance and strengthen its commitment to the health and wellbeing of New Jersey and the world.

Redefining Cancer Care Delivery

Effective July 1, 2021, the Corporation and Rutgers executed a second IPA to integrate the clinical practices of the Rutgers Cancer Institute of New Jersey (Rutgers CINJ) and the Corporation's medical group. This IPA further enhances the unified clinical mission that complements our high quality standards of teaching and research excellence.

In June 2019, the Corporation and Rutgers CINJ, in partnership with the New Brunswick Development Corporation, announced the development of a new, state-of-the-art, free-standing cancer hospital in New Brunswick, the first in New Jersey. A groundbreaking ceremony was held in June 2021 for the new \$735 million facility, which will house:

• a 12-story, 96 bed, 510,000-square-foot facility expected to be completed in 2024;

- key outpatient services, including those for chemotherapy, radiation therapy, and major diagnostic modalities; and
- research laboratories, and space for education and wellness programs.

The cancer center will be located adjacent to RWJ University Hospital New Brunswick (RWJUH) and Rutgers CINJ. Inpatient cancer services are currently housed within RWJUH.

A New National Model for Graduate Medical Education

Rutgers is now the official sponsoring institution of all residency programs at the Corporation's hospitals enabling a new model of medical education with the integration of community, urban, suburban and the U.S. Department of Veterans Affairs rotations. Several programs have already been integrated creating the opportunity to expand advanced fellowships and integrate the programs educating over 1,600 medical residents and fellows. We have focused our efforts leveraging the robust network of Rutgers schools and are advancing our efforts to grow inter-professional practice team training opportunities across the Corporation and other clinical affiliates.

In addition, Community Medical Center's (CMC) teaching program was successfully launched on July 1, 2021. We have also launched the "Rising Stars" program, which seeks to keep top medical school graduates in New Jersey through tuition abatement and post graduate placement programs.

Awards and Distinctions

In connection with the Series 2021A bond offering, the rating agencies reviewed the financial condition of the Corporation. On September 10, 2021, S&P confirmed its AA- long-term rating with a stable outlook. Moody's upgraded the Corporations rating to Aa3 from A1 with an outlook of stable. Moody's stated that "the upgrade and assignment of the Aa3 rating reflects RWJBH's strong and statewide coverage as the largest integrated academic health system and only NCI-designated cancer center in New Jersey, and will continue to differentiate the system in a very competitive market."

The Corporation and its affiliates are recognized as a leading academic health care delivery system, having received the following recognitions, among others:

OVERALL

Several RWJBarnabas Health facilities received regional, state, and specialty recognition by U.S. News & World Report in its 2022-2023 "Best Hospitals" list. RWJUH was ranked in the Top 5 in NJ and a Top 20 Regional Best Hospital in the NY-Metro area and Rutgers Cancer Institute of New Jersey received a High Performing rating for earning the highest score in NJ — one of only 92 cancer programs nationwide to achieve this. In its Best Hospitals for Maternity Care (Uncomplicated Pregnancy), four facilities were designated as High Performing.

% healthgrades.	RWJBarnabas Health received 32 awards and recognitions from the Healthgrades 2023 Specialty Excellence Awards for superior clinical performance in numerous specialty care areas, including cardiac, critical care, and surgical care – with several facilities recognized as top 5 and top 10 percent in the nation. Highlights include: Cooperman Barnabas Medical Center (CBMC) was named one of Healthgrades America's 100 Best Hospitals for Pulmonary Care TM , one of Healthgrades America's 100 Best Hospitals for Gastrointestinal Care TM , and one of Healthgrades America's 100 Best Hospitals for Gastrointestinal Surgery TM . CMC is the only hospital in NJ to earn a Surgical Care Excellence Award and was named one of America's 50 Best Hospitals for Surgical Care.
GHX.	In 2021, RWJBarnabas Health was named a "Best 50" organization by GHX (Global Healthcare Exchange) – for the third consecutive year, for its commitment to a supply chain strategy that removes waste, drives efficiencies and, as a result, raises the quality of patient care delivered.
The Joint Commission	Numerous facilities received the Gold Seal of Approval by the Joint Commission for various programs including joint replacement; disease-specific certifications in acute coronary syndrome, cardiac rehabilitation, and heart failure; advanced certification in palliative care; bariatric surgery; and stroke program.
Digital Health most wired Survey 2022	All RWJBarnabas Health facilities were named to CHIME Healthcare's 2022 Most Wired – 11 of which were awarded certification Performance Excellence Levels of eight and above – for their use of information technology to better the patient experience.
	QUALITY
FALL 2022 LEAPFROG HOSPITAL SAFETY GRADE	In Fall 2022, three acute care facilities received an "A" grade including Monmouth Medical Center (MMC), the only facility in the region to achieve 16 consecutive "A" ratings. Seven facilities received "B" ratings. Additionally, MMC was named as a Best Hospital in America for teaching in July of 2022.
THE LEAPPROG GROUP Money Money	MMC was named to Money's inaugural list of the Best Hospitals in America, created in partnership with The Leapfrog Group. MMC, Newark Beth Israel Medical Center (NBIMC), and Robert Wood Johnson University Hospital Somerset (RWJUH Somerset) were named to Money's 2022 Best Hospitals for Maternity Care list – among just 259 hospitals to receive the award.

ACCREDITED NURSING CONTINUING PROFESSIONAL DEVELOPMENT AMERICAN NURSES GREDENTIALING CENTER	In August 2022, RWJBarnabas Health was granted accreditation for nursing continuing professional development from the ANCC for its commitment to using evidence-based criteria when developing high-quality educational activities that promote the professional growth of nurses.
Measuring quality. Improving health care.	Several practices within the Combined Medical Group of RWJBarnabas Health and Rutgers Health received the National Committee for Quality Assurance Patient-Centered Medical Home Recognition, which emphasizes the use of systematic, patient-centered, coordinated care that supports access, communication and patient involvement.
New Jersey Department of Health	In 2021, five RWJBarnabas Health facilities were awarded Gold recognition for their Antimicrobial Stewardship Programs from the New Jersey Department of Health; MMC has received Gold since the establishment of the awards program in 2019.
MAGNET RECOGNIZED AMERICAN NURSES CREDENTIALING CENTER	Six RWJBarnabas Health facilities have achieved Magnet recognition for excellence in nursing; RWJUH received this recognition six consecutive times – making it one of only seven institutions globally to achieve this distinction.
	SPECIALTY CARE
Designated Comprehensive Cancer Center	Rutgers CINJ, together with RWJBarnabas Health, is New Jersey's only National Cancer Institute (NCI) - designated Comprehensive Care Center –recognized for its clinical and scientific research leadership.
American Heart Association. American Stroke Association. A division of the American Heart Association.	Six RWJBarnabas Health facilities received recognition for cardiac and stroke care, earning a spot on the 2022 Get With The Guidelines® and Mission Lifeline achievement awards list in the stroke, heart failure, and resuscitation categories, by the American Heart Association and American Stroke Association, for their commitment to ensuring stroke and heart failure patients receive the most appropriate treatment according to nationally recognized, evidence-based guidelines – ultimately leading to lives saved, shorter recovery times, and fewer hospital readmissions.
LGBTQ+ HEALTHCARE HEALTHCARE FASTER 2022 EQUALITY LEADER	In 2022, ten RWJBarnabas Health facilities were named "Leaders in LGBTQ Healthcare Equality" by the Human Rights Campaign Foundation – the educational arm of America's largest civil rights organization – recognizing healthcare institutions that are leaders in efforts to offer equitable care to LGBTQ+ patients by evaluating inclusive policies and practices related to LGBTQ patients, visitors and employees.
	WORKFORCE

Newsweek	In 2022, RWJBarnabas Health was recognized with a 5-star rating on the inaugural list of America's Greatest Workplaces for Diversity 2023 by Newsweek – a scored list of companies that employees say really respect and value different kinds of people.
Forbes	In 2021, RWJBarnabas Health was recognized by Forbes as America's Best-In-State Employer for the second consecutive year.
CANCELLOS	RWJBarnabas Health recently celebrated its 10-year anniversary as a CEO Cancer Gold Standard employer – an accreditation awarded by the CEO Roundtable on Cancer – for its dedication and commitment to maintaining a high standard of excellence in cancer prevention, early detection, and quality care for its employees and their families.

Epic Implementation

In order to accomplish the goals of its strategic plan, the Corporation recognized the need to strengthen its core competencies in Technology, Analytics, and Innovation by establishing a unified operating model that will drive standardization, continuous quality improvement and cost reductions across the entire system. Leadership determined that a key component of this is to deploy an integrated Electronic Health Record (EHR) with supporting revenue cycle, data analytics and consumer-facing digital capabilities. After a thorough review of the marketplace, the Epic suite of products was chosen to achieve these goals. The implementation will be done in phases, and the anticipated completion date is 2024, with a cost of approximately \$780,000 over ten years.

The launch of this sweeping initiative, which has been named "Epic Together," formally commenced on January 29, 2020 with simultaneous kick-off events held throughout RWJBH and across key Rutgers campuses. In order to build the Epic system, 3,330 subject matter experts, nurses, physicians, pharmacists, medical school staff at Rutgers University and a myriad of other stakeholders throughout the Corporation were identified and assembled into 62 discipline specific workgroups and councils.

Despite the unexpected impact of the pandemic, the Corporation advanced with the first go-live of the Epic system on May 29, 2021 – comprised of the Robert Wood Johnson Physician Enterprise. Due to exemplary planning and commitment by the team, the implementation was successful as indicated by the achievement of various targets including patient volume, revenues and other metrics exceeding targeted levels.

The Epic Together team has migrated its focus to continue stabilization of the Epic system after the successful Wave 2 activation on October 2, 2021, which included the remainder of the scheduled medical group and RWJUH Somerset, the first acute care hospital to go live. The project completed a successful Wave 3 activation on June 4, 2022. This wave comprised the Rutgers CINJ, RWJUH, RWJUH Hamilton, and RWJUH Rahway and 80 Medical Group Practices. The hospital claim acceptance rate of 99% exceeds that of the Heritage system which was 75%.

Since the project went live more than 2.7 million reports have been produced from the Epic system. The Corporation has trained more than 17,000 individuals with more than 2,500 courses since the project started. In addition, there have been more than 4,000 enhancements to the system spanning more than three dozen specialty areas since the original go live in May of 2021.

RW.JBARNABAS HEALTH

MANAGEMENT'S DISCUSSION AND ANALYSIS, cont.

RWJBH participated in the Good Install Program, offered by Epic that gives organizations an opportunity to earn a rebate by meeting more than 33 requirements of a successful installation. RWJBH received one of the largest rebates in Epic's history becoming the first customer to earn a Gold Stars ranking of a perfect ten for a new installation. Gold Stars program is the adoption of the 700 best workflows in the world. An Epic Gold Stars ranking of ten represents the top 0.3% of all Epic customers, which include some of the nation's top healthcare providers, including the Mayo Clinic, Johns Hopkins, Mass General, the Cleveland Clinic, UCSF Medical Center, and Cedars-Sinai.

The project successfully completed Wave 3B which is comprised of 18 Medical Group practices on October 29, 2022. The Epic Together team is now focused on the next activation, Wave 4, which is scheduled for April 28, 2023. The facilities that will be participating in this wave are Jersey City Medical Center (JCMC), MMC, Monmouth Medical Center Southern Campus, Behavioral Health in Toms River, CMC and 15 Medical Group Practices. In preparation for the projects largest wave, the team is completing multiple rounds of testing and planning of the command centers in coordination with more than 14,500 staff members.

Management's Discussion and Analysis of Recent Financial Performance

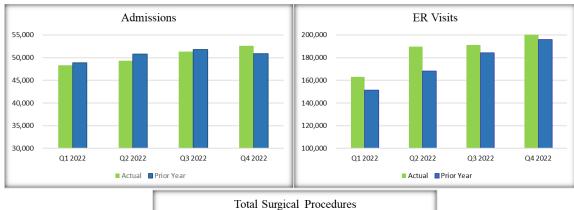

Management's Discussion and Analysis of Recent Financial Performance is based upon the consolidated financial results of the Corporation since the members of the Corporation's Obligated Group represent 83% of the total consolidated operating revenue and 91% of the total consolidated assets as of and for the year ended December 31, 2022. Accordingly, the discussion below includes the financial results of entities that are not members of the Obligated Group.

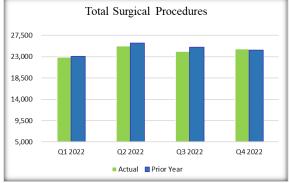

Financial Performance Overview

For the year ended December 31, 2022, the Corporation's total operating loss and operating margin were \$211,081 and -2.8%, respectively, compared to the operating income and operating margin of \$72,119 and 1.1% for the year ended December 31, 2021. Total operating revenues grew by \$970,965 or 14.7% compared to the year ended December 31, 2021, while operating expenses increased by \$1,254,165 or 19.1% during the same period. Included in total operating revenues is funding under the CARES Act totaling \$48,143 and \$65,110 for the years ended December 31, 2022 and 2021, respectively.

Volumes had been steadily improving since 2020. However, due to the temporary slowdown resulting from increased COVID-19 cases in January 2022 and new, more transmittable variants that have surfaced since then, admissions and total surgical volumes were below prior year by 0.4% and 1.4%, while emergency room visits on a gross basis have increased by 6.7%.

The following tables portray select acute care volumes as compared to prior year, by quarter.

Overall, patient service revenue of \$6,993,612 was higher than prior year by \$915,738 or 15.1%. COVID-19 significantly impacted patient service revenue during 2020, and to a lesser extent continues to impact volumes and revenues through December 31, 2022. The favorable variance was partially due to the New Jersey Medicaid County Option Pilot Program (the Pilot Program) and stronger volumes in outpatient cases. The Corporation recognized CARES Act funding to offset the volume shortfall due to COVID-19 of \$48,143 and \$65,110 for the years ended December 31, 2022 and 2021, and also recognized approximately \$28,907 and \$93,817 of FEMA funds within other revenue in the consolidated statement of operations for those same periods, respectively. Trinitas was additive to operating revenue by \$311,421. For additional information, refer to the *Operating Revenue and Volume* discussion.

The increase in operating expenses was driven by increased salaries and benefits, physician fees and salaries, supplies, other expenses, and interest and depreciation, many of which continue to be impacted by the pandemic. Trinitas was additive to operating expenses by \$342,264. For additional information, refer to the *Operating Expenses* discussion.

The Corporation's deficiency of revenues over expenses and deficiency of revenues over expenses margin for the year ended December 31, 2022 were \$584,110 and -8.1%, respectively, compared to the excess of revenues over expenses of \$417,116 and 6.0% for the year ended December 31, 2021. The excess of revenues over expenses was significantly less than prior year mainly due to investment performance. Net investment losses totaled \$664,428, compared to net investment gains of \$346,699 in 2021. Nonoperating losses for the year ended December 31, 2022 was partially offset by the contribution received in acquisition of Trinitas of \$264,636. For additional information, refer to the *Nonoperating Gains and Losses* discussion.

Management continues to focus on i) patient experience, safety and quality improvements, ii) market share growth, iii) population health management, iv) medical research and education, and v) diversifying revenue

streams within the Corporation's business model. Maintaining the balance sheet and improving operating results also remain top management priorities so that the Corporation can continue to invest in people, programs and facilities to successfully adapt and respond to changes in the health care industry while continuing to meet the needs of patients and families in all the communities it serves.

Operations and Excess of Revenue over Expenses

The following table summarizes key operating performance results and overall performance ratios:

	Years ended December 31,		
	2022	2021	
Operating (loss) income	(211,081)	72,119	
Operating margin	-2.8%	1.1%	
EBITDA	198,630	444,126	
EBITDA margin	2.6%	6.7%	
(Deficiency) excess of revenue	(584,110)	417,116	
(Deficiency) excess of revenue margin	-8.1%	6.0%	

Operating Revenue and Volume

The following table presents consolidated operating revenue and select volume statistics for the years ended December 31, 2022 and 2021:

	Years ended December 31,		
	2022		2021
Operating Revenue:			
Inpatient patient service revenue	\$	3,723,853	3,363,410
Outpatient patient service revenue		2,359,341	2,131,150
Professional billing revenue		796,817	485,919
State of NJ subsidy revenue		113,601	97,395
Total patient service revenue		6,993,612	6,077,874
CARES Act grant revenue		48,143	65,110
Other operating revenue		555,733	483,539
Total operating revenue	\$	7,597,488	6,626,523
Volume & utilization statistics:			
Acute care licensed beds		5,443	5,453
Average acute care beds in service		4,363	4,371
Acute care occupancy based on beds in service		70.2%	69.1%
Acute care length of stay		5.66	5.59
Acute care admissions		201,553	202,301
COVID-19 positive admissions		13,327	14,099
Adult and pediatric admissions		134,738	134,166
Newborn and NICU admissions		26,290	26,168
Maternity and obstetric cases		26,603	26,836
Patient days		1,117,526	1,102,077
Same day surgery cases		65,624	65,929
Emergency room visits (excl. admits)		624,762	577,330
Observations		94,204	87,034
Psychiatric hospital inpatient admissions		1,039	957

2021 Volume and Utilization statistics include Trinitas for comparison purposes.

Acute Care payor mix, based on patient days, for the years ended December 31, 2022 and 2021 is presented below:

	Patient	Days
Payor Mix	2022	2021
Medicare	26.4%	27.1%
Medicaid	5.8%	5.4%
Managed Medicare	21.1%	19.2%
Managed Medicaid	19.6%	19.4%
Managed Care	10.8%	10.8%
NJ Blue Cross & Commercial	10.9%	11.7%
Self-pay and Other	5.4%	6.4%
	100.0%	100.0%

Inpatient service revenue of \$3,723,853 (excluding subsidy revenue), was higher than prior year by \$360,443 or 10.7%. For the year ended December 31, 2022, the Pilot Program accounted for approximately \$157,000 of the increase in inpatient service revenue. The Pilot Program is a five-year New Jersey Medicaid demonstration project designed to support local hospitals and to ensure that they continue to provide necessary services to low-income residents. Eligibility in the program was established by State legislation that was signed into law in 2018 and is limited to a maximum of seven counties; 4 in which the Corporation operates – Essex, Hudson, Mercer and Middlesex. Under Program guidelines, which received final federal CMS approval on July 16, 2021 for a program effective start date of July 1, 2021, participating counties will impose and collect a tax on the hospitals that will be transferred to the State and used to draw down additional federal Medicaid matching funds to enhance hospital payments for Medicaid managed care discharges. The assessments and enhanced payments are paid and received on a quarterly basis. The Trinitas acquisition contributed \$128,256 to inpatient service revenue. While COVID-19 cases were down from prior year, volumes increased in Surgical, Medicine and Cardiology. Additionally, the Corporation benefited from increases in Managed care rates as well as \$14,000 of pay for performance bonuses.

Outpatient service revenue of \$2,359,341 was higher than prior year by \$228,191 or 10.7%. The variance was impacted by a 3.4% increase in outpatient volumes. The Corporation experienced stronger volumes in the higher reimbursed areas of Chemotherapy, Observation, and Emergency Room. The Trinitas acquisition contributed \$86,363 to outpatient revenue.

Professional billing revenue of \$796,817 was higher than prior year by \$310,898 or 64.0%. The increase in revenue was primarily due to integration and expansion of the Rutgers Medical Group and Rutgers CINJ under the IPA's.

State of NJ subsidy revenue of \$113,601 increased from prior year by \$16,206 or 16.6%. Trinitas contributed subsidy revenue of \$41,771. The increase was primarily offset by the decrease in the Quality Improvement Bridge Program, which was designed to support the stability of acute care hospitals after the Delivery System Reform Incentive Payment program ended in June 2020. For the year ended December 31, 2021, a receipt of \$24,000 was recognized under this program related to 2020.

The Corporation recognized CARES Act grant revenue of \$48,143 and \$65,110 for the years ended December 31, 2022 and 2021 to help offset the volume shortfalls attributable to COVID-19. Other operating revenue of \$555,733 was favorable to prior year by \$72,194 or 14.9%. Other revenue includes income from grants, pharmacy sales, earnings from joint venture arrangements, sale of a business, contributions, net assets released from restriction, cafeteria, parking and FEMA grants. Trinitas contributed

approximately \$42,000 to other revenue. In August, the Corporation sold its outreach testing business to LabCorp for an operating gain of \$35,000. Joint venture revenue also exceeded prior year by \$8,595 driven primarily by growth in ambulatory surgery and medical practice joint ventures. This increase was offset by grant revenue which was lower than prior year by \$43,133. The decrease was primarily due to FEMA COVID-19 grants.

Certain joint ventures are reported using the equity method of accounting and are not fully consolidated in the Corporation's financial statements. Additional financial information for these joint ventures is included in the table below:

For the years ended December 31,

The increase in revenue from ambulatory surgery ventures was attributable to six new centers acquired from March through December of 2021 and three new centers in 2022 as well as an increase in the volume of billable procedures by 4.9%.

The decrease in home care and hospice ventures was due to a decrease in volume by 5.5%. The decline in volume is attributed to lower homecare visits and hospice patient days by 5.1% and 6.9%, respectively.

Diagnostic imaging ventures exceeded prior year due to an increase in volume of 7.5%. Volume of CT scans, MRI procedures and PET scans increased by 4.9%, 1.9% and 0.5 % as compared to prior year. University Radiology which is a joint venture of Trinitas contributed \$905 to the positive variance which benefited from Hurricane Ida insurance proceeds. The increase was partially offset by an increase in expenses by 4.9%. The expense variance was driven by salaries and medical supplies.

Medical Practice Joint Ventures was favorable to prior year by \$8,927. The Corporation acquired seven new practices in December 2021 and five additional practices in 2022.

Other ventures were unfavorable to prior year by \$319. Expenses were unfavorable by 2.1% while volume was slightly favorable to prior year by 0.5%. In July 2022, the Corporation purchased an additional equity interest in the physical and occupation therapy company it acquired in February 2021. As a result of the recent transaction, the Corporation is deemed to exercise control over the entity for accounting purposes. The change in control triggered a reversal of the equity investment which resulted in a nonoperating gain of \$32,540. The entity is now being consolidated which also resulted in goodwill of approximately \$210,000 and an initial noncontrolling interest of \$26,000 that is included within other assets, net and other changes in net assets, respectively, in the consolidated balance sheet.

During 2021, the Corporation continued to advance its healthcare transformation efforts. These efforts focused on developing capabilities and payment models necessary for success as the industry continues to move towards value-based care. In addition, Braven Health, which began in 2020 as a Medicare Advantage

product in partnership with Horizon and Hackensack Meridian Health, continues to grow and has approximately 50,000 members currently participating.

Operating Expenses

Total operating expenses for the year ended December 31, 2022 of \$7,808,569 increased by \$1,254,165 or 19.1% from the year ended December 31, 2021.

Summarized below are the consolidated operating expenses for the years ended December 31, 2022 and 2021:

	 Years ended December 31,		
	2022	2021	
Salaries and employee benefits	\$ 3,629,097	2,974,702	
Physician fees and salaries	950,617	739,895	
Supplies and other expenses	2,819,144	2,467,800	
Interest	106,486	100,983	
Depreciation and amortization	 303,225	271,024	
Total operating expenses	\$ 7,808,569	6,554,404	

For the year ended December 31, 2022, salaries and employee benefits increased by \$654,395 or 22.0%, compared to the year ended December 31, 2021. The increase in salaries and employee benefits was due to annual salary increases including investments in IT and patient experience initiatives, the expansion of the physician network, and the acquisition of Trinitas. In addition, staffing shortages resulting from staff COVID-19 absences and industry wide shortages in certain clinical specialties and other factors have resulted in significant increased labor costs and investments in employee retention programs.

Physician fees and salaries increased by \$210,722 or 28.5%, compared to the year ended December 31, 2021. The increase was primarily driven by the IPA's with Rutgers Medical Group and Rutgers CINJ as well as the acquisition of Trinitas.

Supplies and other expenses increased by \$351,344 or 14.2%, compared to the year ended December 31, 2021. The increase was primarily due to higher supply costs, contractual and purchased services and other expenses. Supply costs increased by \$101,414. The unfavorable variance was primarily due to the inclusion of Trinitas and the Rutgers Medical Group. Additionally, drug usage and costs increased as compared to last year. Adjusted admissions and adjusted patient days were up 1.7% and 3.0%, respectively from prior year. Contractual and purchased services increased by \$63,042 driven by the inclusion of Trinitas and the Rutgers Medical Group as well legal fees related to acquisitions and Epic costs. The Pilot Program's assessment fees contributed \$41,996 to the variance. The Corporation also impaired an intangible asset which had a negative impact of \$45,000.

Interest expense for the year ended December 31, 2022 increased by \$5,503 or 5.4%, compared to the year ended December 31, 2021 due to the addition of new debt in the latter part of 2021. On September 30, 2021, the Corporation completed an offering of tax-exempt bonds in the aggregate par amount of \$751,845. The additional interest from the new debt series was partially offset by the defeasance of the New Jersey Health Care Facilities Financing Authority Revenue and Refunding Bonds, Barnabas Health Issue, Series 2012A on August 19, 2021.

Depreciation and amortization for the year ended December 31, 2022 increased by \$32,201 or 11.9%, compared to the year ended December 31, 2021. The increase was driven by the acquisition of Trinitas in January 2022 as well as investments in strategic capital projects which were completed in the latter part of 2021 including several phases of the Emergency department renovation at CMC, the CBMC Emergency department expansion, renovation for NBIMC surgical unit and parking garages. Significant capital projects completed in 2022 included the JCMC ED Expansion, MMC Monmouth Mall lease fit out, RWJNB Plum St. finance lease and Epic which went live for certain affiliates of the Corporation.

Nonoperating Gains and Losses

The following table presents a summary of nonoperating revenue and expenses of the Corporation for the years ended December 31, 2022 and 2021.

	Years ended December 31,		
		2022	2021
Investment income	\$	94,589	78,505
Realized gains on investments		20,657	279,307
Unrealized losses on investments		(779,674)	(11,113)
Contribution received in acquisition		264,636	-
Net periodic benefit cost		(3,621)	(2,424)
Interest rate swap valuation changes		30,395	1,636
Break-up fee		(30,000)	-
Gain on equity investment		32,540	-
(Loss) gain on early extinguishment of debt		(2,551)	702
Other		-	(1,616)
Total nonoperating (expenses) revenue, net	\$	(373,029)	344,997

Net investment income and realized gains were \$115,246 and \$357,812 for the years ended December 31, 2022 and 2021, respectively. For the years ended December 31, 2022 and 2021, net unrealized losses were \$779,674 and \$11,113, respectively.

The Corporation entered into various interest rate swap agreements in 2020 and 2021 in order to hedge future interest rate exposure on fixed rated bonds. The total notional amount of all swap agreements is \$281,960. For the years ended December 31, 2022 and 2021, the aggregate change in the net fair value of the interest rate swap agreements was \$30,395 and \$1,636, respectively. Swap agreements expose the Corporation to credit risk in the event of noncompliance by the counterparties. To help mitigate that risk, the swaps were structured with three different counterparties. The Corporation believes the risk of any material impact to the consolidated financial statements is low.

As a result of the merger with Trinitas, the Corporation recognized \$264,636 of net assets contributed in acquisition. On January 27, 2022, the Corporation legally defeased all of the outstanding New Jersey Health Care Facilities Financing Authority Refunding and Revenue Bonds, Trinitas Regional Medical Center Obligated Issue, Series 2016A and all of the outstanding New Jersey Health Care Facilities Financing Authority Refunding Bonds, Trinitas Regional Medical Center Obligated Issue, Series 2017A, in the amount of \$72,252. The transaction resulted in a loss on early extinguishment of debt of \$2,551.

The Corporation and Saint Peter's Healthcare System (SPHCS) had entered into a Definitive Agreement on September 10, 2020 to integrate the two healthcare systems. On June 14, 2022, the Corporation mutually

agreed with the leadership of SPHCS to end the proposed transaction. In accordance with the Definitive Agreement, the Corporation incurred a \$30,000 break-up fee in connection with the termination of this transaction.

The Corporation recognized a gain on equity investment of \$32,540 due to the consolidation of a physical and occupational therapy company as noted previously.

Fundraising

The Foundations support the programs and services of their affiliated tax-exempt organization and support the capital campaign and other fundraising activities of the Corporation.

The following table presents contributions received by the foundations as well as capital and operating support the foundations provided to the hospitals. Conditional gifts are not included until the conditions have been met.

	Years ended December 31,			
		2022	2021	
Contributions without donor restrictions	\$	5,847	6,823	
Contributions with donor restrictions *		52,893	126,931	
Total contributions		58,740	133,754	
Support to affiliates	\$	44,028	52,578	

^{* 2021} restricted revenue included the Cooperman pledge of \$100 million.

Unrestricted Cash and Investments

The Corporation's financial position remains strong with \$11.3 billion in total assets and \$4.9 billion in net assets. Total cash and investments (without donor restrictions) amounted to \$4.6 billion (or 223.7 days) at December 31, 2022, a decrease of \$823,000 over the balance at December 31, 2021, excluding the Medicare Advance. Trinitas contributed approximately \$331,000 of unrestricted cash and investments as a result of the merger. The Corporation continues to invest in capital with approximately \$720,000 in additions during 2022. During 2022, \$293,310 of bond proceeds related to the Series 2021A bonds were reimbursed from the construction fund. The Corporation also made debt service payments of approximately \$260,000 which includes principal and interest and the impact of the defeasance of the Trinitas debt. The net investment loss noted above, of \$779,674, also had a significant impact. The Corporation made additional investments in joint ventures of approximately \$143,000.

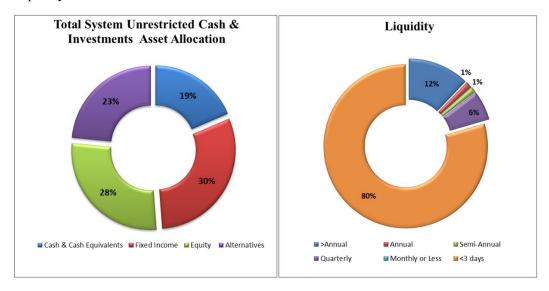

Total unrestricted cash and investments (excluding the Medicare Advance) for the Corporation as of December 31, 2022 and December 31, 2021 were as follows:

	Dec	ember 31, 2022	December 31, 2021
Cash and cash equivalents	\$	267,525	154,095
Current investments		423,327	406,551
Noncurrent investments		3,909,089	4,862,135
Total unrestricted cash and investments	\$	4,599,941	5,422,781

There are two distinct investment portfolios within the Unrestricted Cash and Investment Portfolio, the Capital Reserve Fund (CRF) and Long-Term Portfolio (LTP). Management of these portfolios continues to provide flexibility to support the System's strategic capital plans particularly during times of operating uncertainty and market volatility. The CRF was established at the end of 2019 in anticipation of the Corporation's significant capital investment plans, and is critical to balance near term funding requirements along with long term strategic growth opportunities. It is sized at the beginning of each year to maintain liquidity for the next 12 months of projected extraordinary expenditures in excess of anticipated operating cash flows. The CRF permits the Corporation to assume more risk in the LTP allowing for a higher return potential. The LTP maximizes risk-adjusted returns subject to risk constraints with prudent strategic investing.

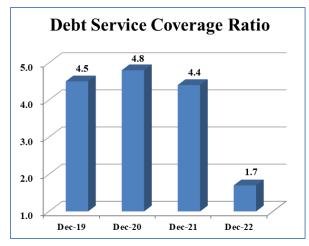

In accordance with the Corporation's Investment Policy Statement, at least 75% of the asset value of the unrestricted portfolio must be classified as "monthly" liquidity. As of December 31, 2022, 80% of the total unrestricted cash and investments were classified as monthly liquidity or less.

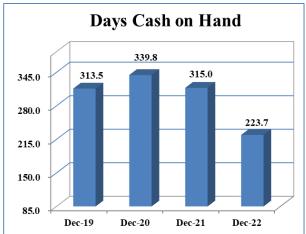

The following charts present the allocation of unrestricted cash and investments by asset type and the portfolio's liquidity as of December 31, 2022.

Financial Condition

The following charts present the debt service coverage ratio and total days cash on hand for the selected dates below.

Days cash on hand and the cash-to-debt ratio have been adjusted to exclude the Medicare Advance received under the CARES Act. The decrease in the debt coverage service ratio is due to the loss from operations incurred during the year ended December 31, 2022 of \$211,081 as compared to income from operations for the year ended December 31, 2021 of \$72,119 as well as the decrease in realized gains on investments.

On March 31, 2022, the Corporation amended its \$50,000 secured revolving promissory note with JP Morgan Chase Bank, N.A. to extend it through March 31, 2023. The note contains an accordion feature that allows the Corporation to increase the loan by an additional \$50,000. The note will be used for routine capital needs. There are no borrowings outstanding.

The following table presents key financial indicators as of December 31, 2022, 2021 and 2020 as compared to S&P's "AA", "AA-" and "A+" medians.

	I	December 31,				
	2022	2021	2020	AA	AA-	A +
Debt service coverage	1.7	4.4	4.8	8.0	6.1	5.5
Debt-to-capitalization	42.9%	39.7%	35.7%	20.0%	25.0%	28.8%
Cash-to-debt	133.6%	161.1%	198.1%	334.9%	263.6%	193.8%
Days cash on hand	223.7	315.0	339.8	350.8	291.9	243.9

The following table presents other select ratios as of December 31, 2022, 2021, and 2020.

	December 31,				
	2022	2021	2020		
Days in patient accounts receivable	40.5	40.8	42.8		
Days in accounts payable	63.8	64.9	58.6

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

(1) Organization

RWJ Barnabas Health, Inc. (the Corporation) is a not for profit, tax exempt corporation located in West Orange, New Jersey. RWJ Barnabas Health, Inc. is the sole corporate member or sole shareholder of the Corporation's affiliated organizations. The Corporation was organized to develop and operate a multihospital healthcare system providing a comprehensive spectrum of healthcare services, principally to the residents of New Jersey and surrounding areas.

The services and facilities of the Corporation include 12 acute care hospitals, 3 acute care children's hospitals, a pediatric rehabilitation hospital with a network of outpatient centers, a freestanding 100-bed behavioral health center, two trauma centers, a satellite emergency department, ambulatory care centers, geriatric centers, the state's largest behavioral health network, comprehensive home care and hospice programs, fitness and wellness centers, physical therapy services, retail pharmacy services, medical groups, multi-site imaging centers, an accountable care organization, a burn treatment facility, comprehensive cancer services, breast centers, and comprehensive cardiac surgery services, including a heart transplant center, a lung transplant center, and kidney transplant centers.

Trinitas Acquisition

The Corporation, Trinitas Regional Medical Center (Trinitas) and Trinitas Health (TH) closed on an affiliation transaction, effective January 1, 2022 (Acquisition Date), whereby the Corporation has replaced TH as the sole member of Trinitas. TH merged with, and into Trinitas, with Trinitas as the surviving merger entity. Trinitas is a 554 bed, Catholic, acute care teaching hospital, headquartered in Elizabeth, New Jersey. Under the terms of the Definitive Agreement, dated November 11, 2020, the role of Trinitas as a full service, Catholic provider of acute healthcare services for the eastern Union County community will be enhanced. Together, both organizations will be able to increase access to high-quality healthcare in the northern and central New Jersey regions, and expand outreach to underserved communities. This includes a specific focus on cardiac care, oncology, emergency services, renal care/dialysis, women's health and wound care, as well as behavioral health services and others.

No cash consideration was exchanged at the closing of the transaction. The Corporation accounted for this business combination by applying the acquisition method, and accordingly, the inherent contribution received was valued as the excess of the fair value of the assets acquired over the fair value of the liabilities assumed. The results of Trinitas' operations have been included in the consolidated financial statements commencing on the Acquisition Date.

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(Information pertaining to the year ended December 31, 2022 is unaudited)

The estimated fair value of the assets acquired and liabilities assumed as of the Acquisition Date is as follows:

		<u>January 1, 2022</u>
Current assets	\$	196,174
Noncurrent assets (including property, plant and equipment)	_	322,915
Total assets acquired		519,089
Current liabilities		84,160
Noncurrent liabilities		158,274
Total liabilities assumed	_	242,434
Contribution received in acquisition	\$	276,655
Net assets without donor restrictions	\$	264,636
Net assets with donor restrictions	_	12,019
	\$	276,655

The following table summarizes the amounts attributable to Trinitas since the Acquisition Date that are included in the accompanying consolidated financial statements:

	Year ended		
		<u>December 31, 2022</u>	
Total operating revenue	\$	311,421	
Total operating expense		342,264	
Loss from operations		(30,843)	
Total nonoperating expenses, net		(9,511)	
Deficiency of revenue over expenses		(40,355)	
Change in net assets:			
Without donor restrictions		7,245	
With donor restrictions		(1,707)	
Change in net assets		5,538	
Decrease in net assets	\$	(34,817)	

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

The following table represents the proforma financial information, assuming the acquisition of Trinitas had taken place on January 1, 2021. The proforma financial information is not necessarily indicative of the results of operations as they would have been had the transaction been effected on January 1, 2021.

	 Years ended December 31,		
	 2022	2021	
Total operating revenue	\$ 7,597,488	6,961,559	
Total operating expense	 7,808,569	6,880,806	
(Loss) income from operations	(211,081)	80,753	
Total nonoperating (expenses) revenue	 (637,665)	351,950	
(Deficiency) excess of revenue over expenses	(848,746)	432,703	
Change in net assets:			
Without donor restrictions	73,197	29,529	
With donor restrictions	 8,316	89,617	
Change in net assets	 81,513	119,146	
(Decrease) increase in net assets	\$ (767,233)	551,849	

Proforma excess of revenue over expenses for the year ended December 31, 2022 excludes \$264,636 of nonoperating revenue and \$12,019 of net assets with donor restrictions which represents the contribution received as a result of the acquisition.

(2) Significant Accounting Policies

(a) Basis of Accounting of Financial Statement Presentation

The accompanying unaudited consolidated financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial reporting. Footnotes and other disclosures that would substantially duplicate the disclosures contained in an audited financial statement have been omitted. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements of the Corporation. Eliminations and reporting adjustments have been made to present the information in accordance with GAAP. The data should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2021 and related notes. Information as of and for the year ended December 31, 2022 are not based on audited information but, in the opinion of management, is presented on a basis consistent with the audited consolidated financial statements and includes adjustments necessary for a fair presentation therein. Adjustments to these financial statements may occur as a result of a more comprehensive review undertaken as part of the audit process for the year ended December 31, 2022.

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

The consolidated financial statements include all affiliates and other entities for which operating control is exercised by the Corporation. Investments in entities where the Corporation does not have operating control are recorded under the equity or cost method of accounting. The Corporation has included its equity share of income or losses from investments in unconsolidated affiliates in other operating revenue. Intercompany balances and transactions have been eliminated.

(b) Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities, at the date of the consolidated financial statements and reported amounts of revenue and expenses during the reporting year. Actual results could differ from those estimates.

(3) Revenue

(a) Patient Services Revenue

The Corporation's patient service revenue is recognized at the amount that reflects the consideration to which the Corporation expects to be entitled in exchange for providing patient care. These amounts are due from patients and third-party payors and include an estimate of variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Corporation bills the patients and third-party payors several days after the services are performed and/or the patient is discharged from the facility.

Revenue is recognized as performance obligations are satisfied. Performance obligations are determined based on the nature of the services provided by the Corporation. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Corporation believes that this method provides a reasonable representation of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. The Corporation measures the performance obligation from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge.

Because all of its performance obligations relate to contracts with a duration of less than one year, the Corporation has elected to apply the optional exemption provided in FASB Accounting Standards Codification (ASC) 606-10-50-14 and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at year-end, which primarily relate to acute care patients (in-house). The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of year-end.

The majority of the Corporation's services are rendered to patients with third-party payor insurance coverage. Reimbursement under these programs for all payors is based on a combination of prospectively determined rates, reimbursed costs, discounted charges, and per diem payments. Amounts received under Medicare and Medicaid programs are subject to review and final determination by program intermediaries or their agents and the contracts the Corporation has with

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

commercial payors also provide for retroactive audit and review of claims. Agreements with third-party payors typically provide for payments at amounts less than established charges. For further discussion on third-party reimbursement, refer to note 5. Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Corporation also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. The Corporation estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions. Implicit price concessions are determined on historical collection experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change and are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments arising from a change in the transaction price were not significant for the years ended December 31, 2022 or 2021. Subsequent changes that are determined to be the result of an adverse change in the patient's ability to pay are recorded as bad debt expense. There was no bad debt expense for the years ended December 31, 2022 or 2021.

Consistent with the Corporation's mission, care is provided to patients regardless of their ability to pay. The Corporation has determined it has provided implicit price concessions to uninsured patients and patients with other uninsured balances (e.g., co-pays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amounts the Corporation expects to collect based on its collection history with those patients. Patients who meet the Corporation's criteria for charity care are provided care without charge or at amounts less than established charges. The Corporation has determined that it has provided sufficient implicit price concessions for these accounts. Price concessions, including charity care, are not reported as revenue.

The Corporation has elected the financing component practical expedient and does not adjust the promised amount of consideration from patients and third-party payors for the effects of a significant financing component due to the Corporation's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payors pays for that service will be one year or less. However, the Corporation does, in certain instances, enter into payment agreements with patients that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract. The Corporation has determined that the nature, amount, timing, and uncertainty of patient service revenue and cash flows are affected by payors and service lines.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is a possibility that recorded estimates could change by a material amount. During the years ended December 31, 2022 and 2021 certain prior year third-party cost reports were audited and settled, or tentatively settled by third-party payors. Adjustments resulting from such audits, settlements, and management reviews are reflected as adjustments to patient service revenue in the period that adjustments become known. The effect of cost report settlements increased patient service revenue by \$22,728 and \$17,049, respectively, for the years ended December 31, 2022

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(Information pertaining to the year ended December 31, 2022 is unaudited)

and 2021. Although certain other prior year cost reports submitted to third-party payors remain subject to audit and retroactive adjustment, management does not expect any material adverse settlements.

(b) Other Revenue

Other revenue includes income from grants, equity in the income of healthcare joint ventures, sale of a business, unrestricted contributions, net assets released from restriction, cafeteria sales, and parking receipts. Grant revenue and contributions of the Corporation are nonexchange transactions in which no commensurate value is exchanged. In such cases, contribution accounting is applied under ASC Topic 958, Not-for-Profit Entities. See note 4 for grant funding received under the Coronavirus Aid, Relief, and Economic Security (CARES) Act. Equity in the income of joint ventures is evaluated under ASC Topic 323, Investments – Equity Method and Joint Ventures.

Additionally, pharmacy sales and other contracts related to healthcare services are included in other revenue and consist of contracts, which vary in duration and in performance. Revenue is recognized when the performance obligations identified within the individual contracts are satisfied and collections are probable.

(4) COVID-19 Pandemic and Government Funding

On March 11, 2020, the World Health Organization declared the COVID-19 outbreak a pandemic. The pandemic adversely affected the Corporation's results of operations during 2020 and continues to affect the Corporation's results through 2022. However, the Corporation experienced a gradual and steady recovery in volumes in 2021 as compared to 2020. There was a substantial spike in COVID-19 cases in December 2021 and January 2022 due to Delta and Omicron variants. This surge resulted in a temporary slowdown or pause on elective surgical procedures at certain hospitals. In January, cases in New Jersey and within our hospitals dropped significantly and volumes were again recovering. However, over the past several months, the Corporation experienced the "tripledemic" surge that much of New Jersey experienced which is finally waning, with rates of COVID-19, influenza and RSV easing within our communities. After three years of an unprecedented public health response, the COVID-19 federal public health emergency will officially end on May 11, 2023.

On March 27, 2020, the President signed into law the CARES Act, which provides economic assistance to a wide array of industries, including healthcare. The CARES Act provides financial relief under several programs including a funding advance of Medicare payments, deferral of the employer portion of payroll taxes and establishment of the Provider Relief Fund (PRF). The U.S. Department of Health and Human Services (HHS) is expected to provide \$175,000,000 to assist healthcare providers in the recovery of lost revenues attributable to COVID 19 and healthcare related expenses. Under the PRF, the Corporation received a total of approximately \$684,000. These funds are considered a grant that is not subject to repayment, provided the Corporation maintains compliance with the related terms, conditions, and reporting requirements of the grant set forth by HHS. The compliance and reporting requirements, as issued and updated by HHS, may continue to evolve, which could impact the amounts recognized by the Corporation through this program. The Corporation recognized \$48,143 and \$65,110 as CARES Act grant revenue for the year ended December 31, 2022 and 2021. As of December 31, 2022, all relief funds have been recognized to revenue.

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

During the year ended December 31, 2020, the Corporation received approximately \$556,000 in Medicare payment advances under the Medicare Accelerated and Advanced Payment Program. The Corporation started recouping these advances in April 2021 with the full amount repaid by September 30, 2022.

The Corporation elected to defer the deposit and payment of the employer's share of Social Security taxes incurred from March 27, 2020 through December 31, 2021 as allowed under the CARES Act. The program requires payment of 50% of the deferred taxes by December 31, 2021 and 50% by December 31, 2022. As of December 31, 2020, the Corporation accumulated approximately \$88,000 of deferred employer payroll taxes. At December 31, 2022, the full amount was repaid.

The Corporation applied for and received approval for the reimbursement of qualifying expenses under the Federal Emergency Management Agency (FEMA). For the years ended December 31, 2022 and 2021, the Corporation recognized approximately \$28,907 and \$93,817 of FEMA funds within other revenue in the consolidated statement of operations. In addition, for the year ended December 31, 2022, the Corporation recognized \$9,358 of FEMA funds within other changes in net assets without donor restrictions for capital reimbursement.

(5) Fair Value Measurements

ASC 820, *Fair Value Measurement* establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include cash and cash equivalents and debt and equity securities that are traded in an active exchange market.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted market prices that are traded less frequently than exchange-traded instruments. This category generally includes certain U.S. government and agency mortgage-backed debt securities and corporate bonds.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. The Corporation currently holds no Level 3 investments.

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(Information pertaining to the year ended December 31, 2022 is unaudited)

The following tables present the Corporation's fair value hierarchy for those assets measured at fair value on a recurring basis, and exclude pledges receivable, net, other investments, and accrued interest receivable, as of December 31, 2022 and 2021:

	December 31, 2022						
	Fair value	Level 1	Level 2	Level 3	NAV

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(Information pertaining to the year ended December 31, 2022 is unaudited)

Under the terms of the Master Trust Indenture (MTI), Barnabas Health, Inc., Children's Specialized Hospital (CSH), Clara Maass Medical Center, Community Medical Center, Jersey City Medical Center, Monmouth Medical Center (including Monmouth Medical Center, Southern Campus), Newark Beth Israel Medical Center, RWJ Barnabas Health, Inc., Robert Wood Johnson University Hospital (RWJUH), Robert Wood Johnson University Hospital at Hamilton, Robert Wood Johnson University Hospital Rahway, and Cooperman Barnabas Medical Center (SBMC) are members of an Obligated Group. Substantially all of the Corporation's debt is subject to the provisions of the MTI.

To secure its payment obligations, the Obligated Group has granted to the Trustee a first lien and security interest in the gross revenue of each member of the Obligated Group.

Obligated Group members are jointly and severally liable under the MTI. The Corporation does have the right to name designated affiliates. Though designated affiliates are not obligated to make debt service payments on the obligations under the MTI, the Corporation may cause each designated affiliate to transfer such amounts as necessary to enable the Obligated Group members to comply with the terms of the MTI, including payment of the outstanding obligations.

The Corporation's Obligated Group is required to maintain certain financial covenants in connection with the NJHCFFA and credit arrangements with a consortium of banks, including JPMorgan Chase Bank, N.A. (JPMorgan), TD Bank and U.S. Bank.

On August 19, 2021, the Corporation legally defeased all of the outstanding New Jersey Health Care Facilities Financing Authority Revenue and Refunding Bonds, Barnabas Health Issue, Series 2012A that mature on and after July 1, 2023. The principal amount of the defeased bonds was \$81,250. U.S. Bank National Association is the bond trustee and escrow agent. The defeased bonds will be called for optional redemption on July 1, 2022 at a redemption price equal to 100% of the principal amount plus accrued interest. The principal amount of the remaining Series 2012A Bonds that was not defeased is \$9,000 and was called for redemption on July 1, 2022 with accrued interest.

On September 30, 2021, the Obligated Group issued New Jersey Health Care Facilities Financing Authority, RWJ Barnabas Health Revenue Bonds, Series 2021A in the amount of \$751,845 as obligations under the MTI. These bonds mature on July 1, 2051 and consist of principal of \$351,355 and \$400,490 in Serial and Term Bonds, respectively. Series 2021A was issued at a premium of \$118,456 for a total source of funds of \$870,301. Principal payments are due annually on July 1 and interest payments are due semiannually until maturity. The bond proceeds will be used to fund the construction of the Rutgers CINJ as well as various other capital projects. As of December 31, 2022, \$680,763 of the bond proceeds was reimbursed from the construction fund.

The Corporation has entered into forward interest rate swap agreements with JPMorgan, Bank of America, and U.S. Bank, respectively. Under the terms of these agreements, the Corporation is paying fixed interest rates ranging from 0.90275% to 1.3625% in exchange for variable rate payments equal to 70% of the effective Federal funds rate. The notional amounts on these swap agreements are tied to the outstanding principal on the underlying bond series. The Corporation has the option to terminate the interest rate swap agreements on or before July 1, 2034. As of December 31, 2022 and December 31, 2021, the fair value of

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

the interest rate swap agreements, net of a credit value adjustment of \$4,231 and \$1,103, was \$36,540 and \$6,145, respectively, and is included in other assets, net.

On March 31, 2021, the Corporation entered into a secured revolving promissory note (the Note) for the principal amount of \$50,000 with JPM for routine working capital needs. The Note contained an accordion feature that allowed the Corporation to increase the loan by an additional \$50,000. The terms of the Note include a commitment fee of .12% and a LIBOR spread at .55%. There was no cash drawn from the Note during the term. The Note expired on March 31, 2022 and was replaced with a \$50,000 secured revolving promissory note (New Note) with JPM expiring on March 31, 2023. The terms of the New Note include a commitment fee of .12%. The interest rate is based on an adjusted term SOFR Rate for the interest period plus .55% per annum. As of December 31, 2022 and 2021, \$5,025 and \$5,575 of the New Note and the Note was used in the form of standby letters of credit (LOC) that provides liquidity support for the Corporation's self-insured workers' compensation and other programs. As of February 14, 2023, there were no borrowings outstanding.

On January 27, 2022, in connection with the Definitive Agreement, the Corporation legally defeased all of the outstanding New Jersey Health Care Facilities Financing Authority Refunding and Revenue Bonds, Trinitas Regional Medical Center Obligated Issue, Series 2016A and all of the outstanding New Jersey Health Care Facilities Financing Authority Refunding Bonds, Trinitas Regional Medical Center Obligated Issue, Series 2017A. The total payment for the defeased bonds was \$72,252. The transaction resulted in a loss on extinguishment of debt of \$2,551 which is recorded in other, net within nonoperating revenue.

(7) Employee Benefit Plans

The Corporation maintains several benefit plans for its employees. The following are brief descriptions of those plans and related expenses for the years ended December 31, 2022 and 2021:

- The Corporation provides pension benefits to its employees through defined contribution plans. Contributions to these plans are based on percentages of annual salaries. It is the policy of the Corporation to fund accrued costs under these plans on a current basis. Pension expense related to these defined contribution plans was approximately \$90,459 and \$84,392 for the years ended December 31, 2022 and 2021, respectively.
- Certain affiliates of the Corporation contribute to various multiemployer defined benefit pension plans under the terms of collective bargaining agreements that cover union-represented employees. Contributions to these plans approximated \$5,399 and \$4,772 for the years ended December 31, 2022 and 2021, respectively.
- Certain employees of the Corporation participate in deferred compensation plans. Eligible
 employees may defer compensation under a salary reduction agreement, subject to certain dollar
 limitations. Payments, upon retirement or termination of employment, are based on amounts
 credited to individual accounts. In connection with these plans, certain affiliates deposit amounts
 with trustees on behalf of participating employees. Under the terms of these plans, the Corporation
 is not responsible for investment gains or losses incurred. The assets are restricted for payments
 under the plans. The plans are funded based upon the benefit formula as outlined in the plan
 documents.

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(*Information pertaining to the year ended December 31, 2022 is unaudited*)

The RWJ Barnabas Health Retirement Income Plan (the RWJBH Plan) covers substantially all employees of the Corporation. The RWJBH Plan is currently frozen and no participants accrue credited service or contribute to the RWJBH Plan.

The assets of the RWJBH Plan are managed under a liability-driven investment (LDI) strategy. Under the LDI strategy, the expected rate of return on plan assets is based upon the assumption that plan assets will be invested primarily in fixed income and other related securities based upon their ability to perform similarly to the characteristics of the plan liabilities over time. The policy of the Corporation is to evaluate the annual funding liability on a calendar year basis. Based on this evaluation, no contributions were made to the RWJBH Plan during the year ended December 31, 2022 and \$4,400 of contributions were made during the year ended December 31, 2021.

(8) Partnership with Rutgers, the State University of New Jersey

The Corporation, Rutgers, the State University of New Jersey (Rutgers), and Rutgers Health Group (RHG) entered into a Master Affiliation Agreement (MAA) in 2018 to partner and create the state's largest academic healthcare system with the goal of integrating medical education, advanced research, and healthcare delivery to produce world class clinical services and outcomes.

The Corporation, Rutgers, and RHG are separate and distinct legal entities. The MAA requires reciprocal commitments and the alignment of each party's respective strategic, operational, and financial interests, and activities as part of a coordinated and mutually supportive academic health system. A Joint Committee was established for strategic planning and oversight featuring equal representation from the Corporation and Rutgers. The Corporation and Rutgers have continued to execute on strategies contemplated in the MAA including integrating the clinical operations of the Faculty of Robert Wood Johnson Medical School (RWJMS) and the Rutgers CINJ through Integrated Practice Agreements (IPA) effective July 1, 2020 and July 1, 2021, respectively. Under the terms of these agreements, Rutgers will continue to employ providers and certain support staff, but the Corporation will be responsible for the operations of the clinical practices and related financial results. This includes establishing a unified medical records system across the Corporation's entire medical group (including RWJMS and CINJ) and creating a unified and integrated patient experience.

The MAA required the Corporation to invest \$100,000 through June 30, 2019 of which \$45,000 was capitalized for the right to use the Rutgers Health brand name. In addition, more than \$1,000,000 over 20 years will be invested to expand the education and research mission of the integrated academic health system. As of December 31, 2022, the Corporation impaired its intangible asset related to the Rutgers brand name. The impairment expense of \$45,000 is included in other expenses in the consolidated statement of operations. During the years ended December 31, 2022 and 2021, the Corporation made payments to Rutgers in the amounts of \$256,836 and \$60,963, net, respectively, related to the MAA and IPA agreements. As of December 31, 2022 and 2021, the Corporation owed Rutgers approximately \$212,000 and \$92,000, net, respectively, under the MAA and IPA agreements. These amounts are included in accrued expenses and other liabilities in the consolidated balance sheets.

Notes to Consolidated Financial Statements

December 31, 2022 and 2021

(Information pertaining to the year ended December 31, 2022 is unaudited)

(9) Potential Affiliations

The Corporation and Saint Peter's Healthcare System (SPHCS) had entered into a Definitive Agreement on September 10, 2020 to integrate the two healthcare systems. On June 14, 2022, the Corporation mutually agreed with the leadership of SPHCS to end the proposed transaction. In accordance with the Definitive Agreement, the Corporation incurred a \$30,000 break-up fee in connection with the termination of this transaction. The amount is recorded in nonoperating expenses in the consolidated statement of operations.

(10) Commitments

The Corporation entered into an agreement with Epic to deploy an integrated Electronic Health Record (EHR) with supporting revenue cycle, data analytics, and consumer facing digital capabilities. When completed, this integration will, among other things, establish one EHR across all ambulatory sites to support the ability to manage physicians as one integrated practice and support the consolidation of the various revenue cycle systems to an integrated solution.

The implementation will be done in phases. The first go live was completed in May 2021. The anticipated completion date of the entire project is 2024. Through December 31, 2022, the Corporation has incurred approximately \$499,775 in capital and operating costs and anticipates spending an additional \$250,225 to complete the project.

(11) Subsequent Events

Management evaluated all events occurring subsequent to December 31, 2022 and through February 14, 2023, the date the consolidated financial statements were available to be issued. The Corporation did not have any material recognizable subsequent events during the period, except as previously disclosed.

Note to Consolidated Financial Statements - Obligated Group

The following financial information as of and for the years ended December 31, 2022 (unaudited) and 2021 (audited) on pages 39 and 40 of the Corporation's Obligated Group was prepared for purposes of accommodating a certain group of bond and note holders. The financial information reflects the financial position and results of operations and changes in net assets of the Obligated Group and not of the entire Corporation and is not intended to be presented in conformity with U.S. generally accepted accounting principles.
