

Respite Care Services

Children's Specialized Hospital is now offering **Respite Care Services** at two locations. Respite Care services are available to support families and their loved one by providing specialized care in a safe, dignified, medically monitored, child-friendly environment. To qualify for Respite Care Services in NJ, the patient must be in MLTSS (Managed Long Term Support System).

Our **Respite Care Team** helps children with multiple healthcare needs, including children with:

- Mechanical ventilator dependency
- Complex seizure disorders
- Neuromuscular diseases
- Chromosomal disorders
- Complications of prematurity
- Orthopedic anomalies and conditions
- Neurological Impairments
- Craniofacial anomalies
- Terminal Illnesses
- Degenerative disease processes
- Traumatic brain injury
- Failure to thrive (Short gut)
- Tracheostomy care
- Other long term needs

Your **child will be cared for** by our:

- Physicians
- Nurse practitioners
- Nurses
- Nurses aides
- Family faculty
- Child Life Specialists
- Patient Care Coordinators
- Dieticians
- Rehabilitation Technology Staff
- Psychotherapists
- Therapists

(Children who rely on tracheostomy tubes and ventilators can only receive this level of care at CSH Mountainside)

CSH Long Term Care facility locations:

📍 150 New Providence, Mountainside, NJ

📍 94 Stevens Road, Toms River, NJ
