

The Rehabilitation Team

Our strong, dynamic, and experienced interdisciplinary teams in our Physical Therapy, Speech/Audiology, and Occupational Therapy divisions work collaboratively to provide comprehensive evaluations, treatment, and education. They provide individually designed rehabilitation programs for patients of all ages based on comprehensive evaluation.

Referrals and Transfers

We also welcome referrals from physicians, psychologists, social workers, schools, and community agencies. Our team will also help to arrange transfers from other hospitals and rehabilitation facilities, ensuring that the transition to outpatient care is handled as smoothly as possible.

Jersey City Medical Center is a not-for-profit teaching hospital. Jersey City Medical Center stands as Hudson County's health care leader with the following recognitions:

- The only hospital in Hudson, Essex and Union counties to receive Magnet Hospital designation for a third time
- Recipient of the Vision of Performance Excellence Award
- Awarded 12 "A" ratings for patient safety and quality from the Leapfrog Group
- Named a Top Teaching Hospital by Leapfrog Group
- Since 2014, the hospital has been designated a "Leader in LGBTQ Healthcare Equality" by the Healthcare Equality Index (HEI)
- State-Certified Stroke Center
- State-Designated Trauma Center for Hudson County
- State-Designated Perinatal Center
