About Jersey City Medical Center

Jersey City Medical Center, an RWJBarnabas Health facility, is Healing, Enhancing, and Investing in Hudson County. It is a comprehensive full-service acute and sub-acute care 348-bed teaching hospital. A not-for-profit hospital, the Medical Center is a state-designated Level II Regional Trauma Center with close to 16,000 admissions and over 80,000 Emergency Department visits annually. The hospital specialty services include women's health, orthopedics, heart and vascular care, and behavioral health. JCMC is the only full-service heart hospital in Hudson County, offering access to outstanding cardiologists and sophisticated and advanced treatments, such as cardiac surgery and Transcatheter Aortic Valve Replacements (TAVR). RWJBarnabas Health and Jersey City Medical Center are in partnership with Rutgers Cancer Institute of New Jersey, the state's only NCI-designated Comprehensive Cancer Center. JCMC is an American Heart Association Gold Plus and DNV certified Primary Stroke Center. It is a regional comprehensive cardiac center, a perinatal intensive care center, a regional level 3 neonatal intensive care unit for critically ill newborns, and home to the most advanced robotic-assisted surgical program in Hudson County. JCMC, a provider of Advanced Life Support for Hudson County, runs 911 Medical Call Screening for Hudson County and operates one of the state's busiest EMS systems.
