WELCOME TO THE
**Enhanced Recovery
 after Bariatric Surgery
 Program at Community
 Medical Center and
 Monmouth Medical Center**

Enhanced Recovery is an evidence-based approach designed to help people recover more quickly from surgery. This booklet explains the care you can expect to receive prior to your surgery, the day of and following your surgery. During this time, we will work closely with you and your support system to help ensure a safe and speedy recovery.

Be involved in your care

Community Medical Center and Monmouth Medical Center are high reliability organizations, which means that our number one priority is to keep you safe. We ask our patients to become involved in their plan of care which will allow for better communication and will create an environment in which you feel informed, involved, and most of all safe.

We encourage you to be an active participant on your health care team by doing the following:

- Learning about your procedure and how you can become involved in your recovery
- Always speaking up if your something doesn't seem right to you

Community Medical Center and Monmouth Medical Center have earned the prestigious designation as MBS AQIP Comprehensive Center (formerly a Center of Excellence) from the American Society for Metabolic and Bariatric Surgery.
