

Special Needs Primary Care

Special Needs Primary Care at Children's Specialized Hospital is the family-centered medical home to keep you at the center of all your care.

We understand the complexities of raising a child with special healthcare needs. At Special Needs Primary Care, we are proud to provide children with special healthcare needs, and their siblings, outstanding family-centered healthcare.

What's a Family-Centered Medical Home?

Children's Specialized Hospital is your medical home, or your healthcare home base. We are your central resource for all of your child's healthcare needs. Our family-centered medical home treats children birth through 21-years-old, providing comprehensive and specialized primary care coordinating your child's care from start to finish. Together, our healthcare team will provide a simpler approach to your child's healthcare.

Through this partnership, you will receive the best resources and information related to:

- Equipment and quality service
- Home care and improved processes
- Information on health conditions and the latest treatments to better serve your child
- Other key local resources specific to your area
- Pediatric specialists providing coordinated care
- Support and respite services to protect and better your health

As Your Medical Home, we will

- Coordinate care with you and other care providers
- Discuss any testing or treatment that your child needs
- Help you plan your child's care and set goals for his or her care Partner with you to help you live well and stay well
- Take care of your child when they are sick

Learn more.

Our Approach

Our practice strives to address the developmental and medical needs of children, in addition to behavioral health services. This is done through highly coordinated and effective family-centered medical care involving social workers, patient care coordinators, behavioral health therapists, doctors, and nurses.
