- Orthopedics

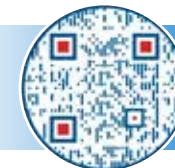

What Our Patients Say About Us

"We absolutely love our doctor! She's always been wonderful to work with and she's super great with my little boy! We look forward to seeing her at our appointments! We always get seen on time and we always have the best experience!" -Alisa J, Union

"I'm so happy I made the decision to bring my daughter to Children's Specialized Hospital. My 6-month-old daughter was born with moderate Torticollis. Our physical therapist is kind, compassionate, and thorough. He truly cares about his patients and their needs. I highly recommend this hospital to anyone." -Brittany B, Toms River

"I have only positive things to say about this facility. My family and I have been going here for 5 years now. We see the pediatrician, developmental, neurology, psychology, audiology, PT, OT and speech. I love all our doctors and therapists and we only have to go to one place for all of our care. If you do the work and participate you will get the most out of the services. They have really helped us on our journey." -Faith B, Hamilton
