

About Children's Specialized Hospital

Children's Specialized Hospital, an RWJBarnabas Health facility, is the nation's leading provider of inpatient and outpatient care for children from birth to 21 years of age facing special health challenges — from chronic illnesses and complex physical disabilities like brain and spinal cord injuries, to a full scope of developmental, behavioral, and mental health outcomes. At 15 different New Jersey locations, our pediatric specialists partner with families to make our many innovative therapies and medical treatments more personalized and effective so each child can reach their full potential.

- Microsoft Health Innovation Award recipient for Patient Engagement

What Our Patients Say About Us

"Our care at Children's Specialized Hospital is always personal and thoughtful. The therapists listen to all our concerns and individualize each session for my son."

- Mother of Danny M., 3 years old

"When my son started therapy, he was only saying a couple of words. Now he gives a small speech at his school! His therapists make him feel welcome and are very encouraging!"

- Mother of Jake L., 5 years old

"The therapists that treat my daughters give me the guidance I need to bring the skills learned in therapy into our home. They are always willing to go the extra mile for the families and have given me a sense of hope."

- Mother of Katie and Kelly K., 11 and 15 years old
