Special Needs Primary Care

We understand the complexities of raising a child with special healthcare needs. Our Special Needs Primary Care is proud to provide children with special healthcare needs, and their siblings, outstanding family-centered healthcare.

As Your Medical Home, we will:

- Take care of your child when he or she is sick
- Help you plan your child's care and set goals for their care
- Discuss any testing or treatment that your child needs
- Coordinate care with you and other care providers
- Partner with you to help you live well and stay well

Two Locations in Hamilton, NJ and Union, NJ

Our Current Studies

Effect of Whole Body Vibration on Toe Walking in Children with Autism (4-12 years old). The physiatry department at CSH is looking to see if whole body vibration therapy affects toe walking in children with autism. We are seeking children with autism who toe walk, ages 4 to 12 years old, who do not have another diagnosis that causes toe walking. For more information, please contact Kendall Hulk DO at khulk@childrens-specialized.org.

Investigating Cognitive Correlates of Action-Control in Children with Autism Spectrum Disorder and Attention-Deficit/Hyperactivity Disorder (6-16 years old): The Developmental and Behavioral Pediatrics Research Unit at CSH is examining how children diagnosed with autism spectrum disorder (ASD) and attention-deficit/hyperactivity disorder (ADHD) control their behavior and choose their actions. We are seeking children (6-16 years old) with a diagnosis of autism and ADHD or autism only. For more information, click on the title to see the flyer, or contact Dr. Joman Natsheh at jnatsheh@childrens-specialized.org or Amira Herstic at aherstic@childrens-specialized.org.

Our Current Studies Continued

A Pilot/Feasibility Study of the Use of High Dose Propranolol to Treat Severe and Chronic Challenging Behaviors in Adolescents and Adults with Autism Spectrum Disorders (12-30 years): Rutgers University (RWJMS) is examining the efficacy of propranolol to treat severe and chronic challenging behaviors in adolescents and adults with autism spectrum disorder. They are seeking children and adults (12-30 years old) with a diagnosis of autism to participate in a double-blind study. For more information, please contact Dr. Barbie Zimmerman-Bier at [\(732\) 401-6588](tel:(732)401-6588) or email asdpropranolol@rwjms.rutgers.edu

SPARK: The Simons Foundation Powering Autism Research for Knowledge (SPARK) is an autism research initiative that aims to recruit, engage and retain a community of 50,000 individuals with autism and their family members living in the U.S. This study involves contributing a saliva sample and completing behavioral surveys. For more information, please call [908-301-5958](tel:908-301-5958).

Does Your Child Struggle to Understand the Emotions of Others?

If your child:

- has sustained a traumatic brain injury (TBI) at least 1 year ago
- is between the ages of 9-17 years old
- is experiencing difficulties in understanding others emotions
- has no other neurological illness
- is able to speak and read English fluently
- is able to use a computer

They may be eligible to participate in a new study investigating whether an emotional processing program can improve the interpretation of others emotions in children and adolescents following traumatic brain injury (TBI).

Requirements:

- 45 minute screening evaluation for full study inclusion.
- 8 weeks total of participation broken down in the following:
 - *Week 1:* 3-hour visit for paper-and-pencil tests and questionnaires.
 - *Weeks 2-7:* 45-60 minute sessions twice per week for six weeks, during which your child has a 50/50 chance of either undergoing experimental treatment for processing emotions or participating in computer exercises.
 - *Week 8:* 3-hour visit for paper-and-pencil tests and questionnaires.

This study can be completed entirely remote! Testing will take place using a HIPAA compliant online platform.

Participants who complete this study will receive \$300 for their time.

New Support Corner for Parents

Children's Specialized Hospital's NEW Support Corner for Parents & Caregivers

The CSH Family Advisory Council has created an online support corner for parents and caregivers of children with special healthcare needs. This page provides access to blogs, resources, support groups and monthly events to ensure families have the support they need on their healthcare journey. Check out all the page has to offer below and visit rwjbh.org/cshsupportcorner to learn more.

NJDOE's Transition Toolkit

New Webinar Alert!

Special Education Webinar Series The Arc of New Jersey Family Institute Transition planning begins at age 14 when the student and their IEP team start to discuss long term goals of postsecondary education, employment, and daily-living skills.

These services should always be a combination of in-class instruction and community-based experience aimed at helping a student achieve their long-term goals. This presentation will provide an overview of the resources available through the New Jersey Transition Toolkit located on the NJ Department of Education website. The Transition Toolkit can help parents and professionals understand their role in preparing children for life after high school and also contains information about state agencies that can assist in transition.

Recording is available [Here](https://bit.ly/doetransitionwebinar): bit.ly/doetransitionwebinar

Summer Bilingual Program for PreK Latino Families Research Study

**Entering Kindergarten?
Spanish-speaking or are
you bilingual in English/Spanish?**

Help us with our bilingual family wellness program for Latino families!

If your child is entering kindergarten this Fall you may be eligible!

Learn about health topics like sleep and nutrition!

Letter introduction in Spanish and English!

Read books in Spanish and English!

Interested?

Text or call us at: 732-867-8087 or email us: ready4k@rwjms.rutgers.edu

What does the study involve?

Some families may attend **8 ONLINE summer classes** that last ~60 minutes each

Complete **3 surveys** via phone/zoom with your child over one year

Flexible evening and weekend hours!

All participants receive a **backpack with school supplies** and resources and up to **\$75 in gift cards!**

Tips for Families for Preschool Disabled

page 1 of 4

There are many benefits to getting a jump start on your child's development. We are fortunate to have in the State of NJ through our public school districts wonderful programs for children who need some extra help.

This is the perfect opportunity for you to participate in your child's education from the start. If you, your child's doctor, or therapist have concerns about your child's development, your child may receive a free evaluation in their local school district to determine if they are eligible for free special education services during the preschool years.

The Individuals with Disabilities Education Act (IDEA) –identifies which children are eligible to receive Preschool Special Education services.

There are two sets of criteria:

1) Age Requirements:

To receive Preschool Special Education services, your child must be at least three years old.

Preschool Special Education services may continue until your child enters or is eligible to enter kindergarten.

2) Requirements Related to Disability: In addition to the age limits, to receive Preschool Special Education services, your child must (1) have a disability; AND (2) need special education and related services because of the disability. (N.J.A.C. 6A:14-1.1 General Requirements)

Tips for Families for Preschool Disabled

page 2 of 4

Steps to Follow:

Contact your local school district to find out the name and address of the Director of Special Services or the Supervisor of Special Services.

Write a short letter expressing your concerns for your child. (Sample template on back)

Mail, email, or personally deliver the letter to your school district. Keep a record of the person and date of when the letter was received.

If you do not hear from the district within the 20 calendar days call the Special Education Department and the local district and ask for the status of your request. *School Districts have 20 calendar days (N.J.A.C:-2.3 Parental, Notice, Participation and Meetings) from the time of receiving the letter to get back to you.

Positive Tips for Partnering with your School District:

- Share your child's story.
- Be your child's cheerleader and celebrate the successes
- Good Communication is key.
- Enjoy your child and celebrate their achievement in transitioning to pre-school.

Tips for Families for Preschool Disabled

page 3 of 4 - in Spanish

Consejos para las familias de personas con discapacidades en edad preescolar

Son muchos los beneficios de comenzar a tratar el desarrollo de su hijo/a. En el Estado de Nueva Jersey tenemos la suerte de contar con maravillosos programas para los niños que necesitan ayuda extra, a través de nuestros distritos de escuelas públicas. Es la oportunidad perfecta para participar de la educación de su hijo/a desde el comienzo.

Si usted, el médico de su hijo/a o el terapeuta tienen dudas sobre su desarrollo, puede realizar una evaluación gratuita en su distrito escolar local para determinar si puede recibir servicios gratuitos de educación especial durante los años de preescolar.

La Ley de Educación para Personas con Discapacidades (IDEA) identifica qué niños son elegibles para recibir servicios de educación preescolar especial.

Hay dos grupos de criterios:

- Requisitos de edad: Para recibir servicios de Educación especial preescolar, el niño debe tener por lo menos 3 años de edad. Los servicios de educación preescolar especial pueden continuar hasta que el niño comience o sea elegible para comenzar el jardín de infantes.
- Requisitos relativos a la discapacidad: Además de los requisitos de edad, para recibir servicios de educación preescolar especial, el niño debe (1) tener una discapacidad; Y (2) requerir educación especial y servicios relacionados debido a dicha discapacidad. (Código Administrativo de Nueva Jersey [N.J.A.C., por sus siglas en inglés] Sección 6A:14-1.1, Requisitos Generales)

Tips for Families for Preschool Disabled

page 4 of 4 - in Spanish

Pasos a seguir:

Comuníquese con su distrito escolar local para averiguar el nombre y la dirección del director o supervisor de servicios especiales.

Escriba una breve carta en la que describa las preocupaciones que tiene sobre su hijo/a. (Modelo en el reverso)

Puede enviar la carta al distrito escolar por correo, e-mail o entregarla personalmente. Registre quién recibe la carta y en qué fecha.

Si no tiene respuesta del distrito dentro de los 20 días corridos, llame al Departamento de Educación Especial y al distrito local y pregunte por el estado de su solicitud. *Los distritos escolares tienen 20 días corridos (N.J.A.C: 2.3 Padres, notificaciones, participación y reuniones) a partir del momento en que reciben la carta para ponerse en contacto con usted.

Sugerencias positivas para colaborar con su distrito escolar:

- Comparta la historia de su hijo/a.
- Aliente a su hijo/a y celebre sus éxitos.
- La buena comunicación es clave.
- Disfrute de su hijo/a y celebre el logro de pasar a preescolar.

Travel tips from one family to another (English)

Tips for flying:

- Carry all medications in a carry on bag and in the original containers
- Look up the appropriate [TSA procedures](#) in advance to avoid delays at security
- Consider contacting [TSA Cares](#) in advance, they can arrange for an escort through security to ensure the process goes smoothly. Inform them of any medications, liquids or equipment you may be traveling with
- If you are flying with a child who requires oxygen or if they are on a ventilator, contact the airline in advance to ensure their needs can be addressed safely
- Flying with a power wheelchair requires planning ahead. Follow this link for some great tips: [Tips for Air Travel with a Power Wheelchair](#)
- Familiarize yourself with the [Airline Passengers with Disabilities Bill of Rights](#)

Tips for traveling by car:

- Take frequent breaks
- If your child is traveling in a wheelchair, be sure to perform pressure relief as needed
- Ensure your child stays well hydrated (even if it means frequent bathroom breaks!)
- Consider planning stops near a park, playground, or other area where your child can move around and take a break from sitting

Travel tips from one family to another (English)

General travel tips:

- Have a “Go Bag” ready with additional supplies, snacks and activities in case of any travel delays
- Bring your accessible parking placard, even for international travel
- Movies/TV shows can really help pass the time. If you have access to a tablet, download a few different options and be sure to have a backup charger just in case
- Confirm with your hotel that you have booked a room that accommodates your needs
- A simple [ID card](#) in your child’s pocket can be helpful, particularly if your child has a tendency to wander
- Traveling with a doctor’s note detailing your child’s diagnosis may make it easier to access support and accommodations
- Plan well and enjoy your travels!

Travel tips from one family to another (Spanish)

Consejos para volar:

- Lleve los medicamentos en un bolso de mano dentro de sus recipientes originales
- Investigue los [procedimientos de la TSA](#) adecuados con anticipación para evitar demoras
- Considere ponerse en contacto con [TSA Cares](#) con antelación; podrán disponer una escolta para los controles de seguridad y garantizar que el proceso se desarrolle sin contratiempos. Infórmeles sobre los medicamentos, líquidos o equipos que lleve con usted
- Si está volando con un niño que necesita oxígeno o si está conectado a un respirador, comuníquese con la aerolínea para asegurarse de que puedan satisfacerse sus
- Para volar con una silla de ruedas eléctrica, es necesario planificar con antelación. Ingrese a este enlace para ver otros consejos útiles: [Consejos para viajar en avión con una silla de ruedas eléctrica](#)
- Conozca los [derechos de los pasajeros aéreos con discapacidad](#)

Consejos para viajar en auto:

- Paren con frecuencia a descansar
- Si su hijo está viajando en una silla de ruedas eléctrica, asegúrese de aliviar la presión según sea necesario
- Asegúrese de que su hijo esté bien hidratado (incluso si esto significa ir muchas veces al baño)
- Considere planificar paradas cerca de un parque, patio de juegos u otra zona donde su hijo pueda moverse y caminar

Travel tips from one family to another (Spanish)

Consejos generales para viajar:

- Tenga listo un kit con insumos adicionales, refrigerios y actividades en caso de que se retrase el viaje
- Lleve su permiso de estacionamiento accesible, incluso para viajes internacionales
- Las películas/los programas de televisión pueden ayudar a pasar el rato. Si tiene una tableta, descargue diferentes opciones y asegúrese de tener un cargador de repuesto por las dudas
- Asegúrese de que el hotel que ha reservado se ajuste a sus necesidades
- Una simple [tarjeta de identificación](#) en el bolsillo de su hijo puede ser de ayuda, en especial si su hijo suele deambular
- Viajar con una nota del médico en la que se detalle el diagnóstico de su hijo puede facilitar el acceso a apoyo y a adaptaciones
- Planifique bien y disfrute de sus viajes

Project SEARCH Applications Now Available

Mission to Transition - Project SEARCH Applications Now Available

Project SEARCH is a one-year, intensive employment skills training program based inside Overlook Medical Center in Summit, NJ. Students spend an entire school year on-site at the hospital rotating through three different internship experiences. They also receive 90 minutes of classroom-based instruction per day on topics related to employability and independent living. Students are strongly encouraged to take public transportation to and from Overlook, and the program offers comprehensive travel training the summer before the program begins in collaboration with the NJ Travel Independence Program at Rutgers.

Project SEARCH is accepting applications on a rolling basis. We will schedule interviews with students and their families after all application materials are received.

To learn more about SEARCH visit:

FREE DENTAL CARE FOR KIDS

Through the ADA Foundation's Give Kids A Smile program, launched nationally by the American Dental Association in 2003, more than 5 million undeserved children have received free oral health services. These free services are provided by approximately 10,000 dentists annually, along with 30,000 other dental team members.

Each year, here in NJ, more than 100 dental practices and clinics participate in this one-day event.

Sexual Health Equity for People with I/DD

Sexual Health Equity for People with I/DD

Did you know many people with disabilities do not receive access to sexual health education? This can be a difficult topic for some to navigate, but thankfully Oregon Health & Science University has put together a wonderful guide and resource portal on this topic, including how to help people with I/DD learn who they are, what their rights are, how to express themselves, and how to build healthy relationships.

Adaptive Swim

NEW! We now have Angelfish trained swim instructors at the JCC! These instructors specialize in teaching swimmers with motor or sensory delays!

This one-on-one 30-minute aquatics class, taught by our Angelfish trained swim instructors, is ideal for children with special needs. Lessons are adapted to each child's specific strengths and needs. Our aquatics staff can help even the most hesitant child enjoy the water!

Single 30-minute lesson

Price: \$60, Member Price: \$45

Four 30-minute lessons

Price: \$240, Member Price: \$180

PLEASE NOTE: An intake form is required. To begin the intake process, please contact Jade Evans, Aquatics Director, at jevans@jccnj.org or x259.

Lessons must be paid for by the first day of class. Private lessons must be completed over a **6-week period**. In the event of cancellation, please notify the instructor or Aquatics Director at least **4 hours prior to the start of the lesson**. **If 4 hours notice is not given, you will be charged the cost of that lesson. No credit given for uncompleted lessons.**

Buddy Ball

Special Needs Athletic League

PROGRESSIVE DIRECTIONS, INC.

What Is Buddy Ball?

Buddy Ball is a year-round, non-profit, special needs athletic league. We strive to provide non-competitive sports and special events to individuals who have physical, intellectual and/or developmental disabilities to give them an opportunity to play sports, regardless of their disabilities. There is a long list of sports that are part of the Buddy Ball program including bowling, street hockey, basketball, bowling, soccer, baseball and flag football. The nature of these activities teaches teamwork, promotes self-esteem, turn-taking, physical fitness, and social skills. The league also strengthens support networks for our athletes and their families.

The program serves adults and children ages 3 and up in Montgomery County and surrounding areas. There's no charge for participating in any of the sports or activities.

Featured sports are Basketball, Baseball, Bowling, Street Hockey and Swimming. Additional special events are the Buddy Ball Prom, Easter Egg Hunt, and a Christmas Parade.

We want to hear from Individuals with I/DD and their family members!

Participate in a Focus Group to share your perspectives on:

The ways in which people with I/DD from underserved communities and their families access information about services and supports.

Your feedback will help to inform the New Jersey Council on Developmental Disabilities about the ways in which information about supports and services can be most effectively shared in underserved communities.

To register, fill out the
[Pre-participation survey here](#)

Stipends will be provided to those who are selected to participate in the focus groups.

Infant Research Study at Rutgers

Institute for the Study of Child Development Where Science and Baby Minds Meet

The Institute for the Study of Child Development at the Rutgers Robert Wood Johnson Medical School invites you and your infant (4 – 24 months of age) to participate in a free research study on how infants learn about their world through vision and hearing and interaction, and how this might identify at-risk infants.

You together with your baby will watch a few short videos of moving objects and talking faces, and also spend some time interacting with each other face-to-face.

We make appointments to fit your schedule
Appointments last approximately 45 minutes
Please contact Stacey at (732) 235-7700 Or

All About the Spectrum Group

June 20th, from 6:30 to 8:00pm

This support group is for parents and caregivers of children 2 to 8 years old who are on the autism spectrum. We offer workshops, recreational activities, emotional support, and guest speakers. As parents, we understand raising a child with autism has challenges. So, this group is an inclusive, safe space for parents to connect with other parents that are going through the same things. When you participate, you become a member of a community with shared resources.

Dads Support Group

Better Together Dads Support Group

Fathers play a large role in their children's development. Our goal is to educate, equip and empower parents to become effective advocates for their children and to develop the parenting, coping and resilience skills needed to have a happy, healthy, and successful family.

This Support Group for Dads is a safe place for connection with other passionate dads, to learn innovative approaches to parenting; while building on their strengths; and supporting them, as necessary.

Join Us Every Month on the First and Fourth Thursday!

NJ Dept. of Education: Providing Additional Services to Students with Disabilities Beyond Age 21

NJ Department of Education: Providing Additional Services to Students with Disabilities Beyond Age 21

The New Jersey Department of Education provided guidance to school districts, students, and parents/guardians of students with disabilities regarding the implementation of P.L.2021, c.109, which allows schools to provide additional or compensatory special education and related services to eligible students with disabilities beyond the age of 21.

The guidance includes information for school districts/LEAs about:

- The role of the IEP team in determining the need for additional services
- Sharing information with families about this legislation
- Dispute resolution

Reimbursements to school districts for providing additional services beyond age 21

Traumatic Brain Injury Board Members

Traumatic Brain Injury Survivor Board at the New Jersey Division of Disability Services

We are looking for a survivor of traumatic brain injury between the ages of 17 and 21 to serve as a member on the newly established survivor board. Please refer to the role and expectations outlined below to see if you or someone you know would be a good fit.

Role and expectations:

- Serve as a member on the NJ TBI Survivor Board and, along with the TBI Advisory Council, advise the NJ TBI Fund on pertinent issues and concerns.
- Contribute to discussions and activities in subcommittees based on experience and expertise. Subcommittees include:
 - Data Analysis and Evaluation
 - Consumer and Family Needs
 - Racial Equity
 - Resource Infrastructure and Service Providers Capacity.
- Assist in development of advocacy and prevention material and programs for TBI survivors in New Jersey.
- Convey the priorities and recommendations of the TBI Advisory Board to other relevant state or private boards, commissions, committees, or workgroups on which members participate.
- Update the TBI Advisory Board on the work of other relevant boards, commissions, workgroups, and committees.
- Contribute to discussions and implemented plans to coordinate services for individuals with traumatic brain injury.
- **If interested, please contact Sakina Ladha at: sakina.ladha@dhs.nj.gov**

Two federal programs for low income individuals: Lifeline and Affordable Connectivity

The Lifeline program and the Affordable Connectivity Program help make phone and internet service more affordable for low-income individuals. Eligible individuals also qualify for a free smartphone through the Lifeline program. If you participate in certain assistance programs like Medicaid, NJ SNAP or SSI, you automatically qualify for both federal programs. For additional information, please see this link:

<https://nj.gov/humanservices/home/digitalaccessforall.shtml>

Looking for safe, at-home activities to keep you and your family busy?

Our virtual program library is a free hub of on-demand activities that can be done from home by people with disabilities, their families, and service providers.

The library is expanding all the time and has activities in a wide variety of areas, such as arts, life skills, health and wellness, virtual clubs, and more.

Browse listings to find activities like:

- Participating in dance, yoga, and other movement activities
- Learning about internet safety
- Virtually touring places like Disney World and museums

Gas Voucher Transportation Assistance

Medicaid Program (Non-Emergency Transportation: N.E.T.): N.E.T. is a free program that offers gas money or transportation to Medicaid recipients. It pays for the expenses of taking a child to Medicaid covered doctor visits. This program provides reimbursement for travel to any non-emergent appointments, basically anything but an ambulance visit to the emergency room. Contact the Medicaid office (**number on the back of your Medicaid card**) to find out if you qualify. This is a reimbursement program. That means you must attend your appointments first, before you are paid. After you have applied for the services and are approved, you will receive a debit card in the mail. The funds will be electronically deposited to your card. You should plan on paying for your own transportation for up to three months. After that, you will have money on your debit card. Steps to take for the program:

- Call the phone number on the back of your Medicaid Card
- Select the appropriate option to connect
- Tell the service representative that you want to apply for the N.E.T. program
- Have available: your Medicaid card, your doctor's name, the date of your next appointment, and the doctor's telephone number

Other Resources:

-Salvation Army- Free gas vouchers, free gas cards for low income individuals and more general transportation help are offered at most Salvation Army locations. However, only a small number of individuals who apply for these resources will be accepted. Funding is extremely limited, and varies based on the cost of gasoline. The most common reasons for releasing funds are for help reaching school, doctor's appointment, job training, or an interview. Contact the Salvation Army or go into a local location to apply.

-Saint Vincent de Paul- Society of St. Vincent de Paul is one of the largest charity organizations. Contact the nearest Catholic Church in your town or county and inquire if they have a Society of St. Vincent de Paul Conference near you, people of all backgrounds and religions can get help. As funding and resources allow, if someone needs a bus token or free gasoline to get to a job interview or appointment, then St. Vincent may be able to provide this. Funding is very limited so only certain centers or churches will be able to offer gas.

-Local charities and religious organizations may provide financial assistance for gas or transportation.

On Track Resources

On Track Resources

We provide child study team services (case management, full child study team evaluations) to the Lakewood, NJ non public school system. We services 70+ schools through our contract with the Lakewood BOE.

From the Community Health Law Project

[NJ Human Services Announces Partnership with Community Health Law Project to Increase Access to Legal Services for Deaf and Hard of Hearing Individuals with Lower Incomes](#)

Human Services Acting Commissioner Sarah Adelman announced on July 26th that the Department has partnered with the Community Health Law Project to increase access to legal services for deaf and hard of hearing individuals with lower incomes.

The partnership is a collaboration between Human Services' Division of the Deaf and Hard of Hearing ([DDHH](#)) and Division of Mental Health and Addiction Services ([DMHAS](#)).

Through the partnership, eligible deaf and hard of hearing individuals can receive legal assistance and supports with matters related to their public assistance, health insurance, social security benefits, landlord-tenant disputes, foreclosure defense, family law issues, consumer protection and debt collection and more. In addition, CHLP is able to meet communication access needs including ASL interpreting and captioning.

[More Info](#)

Planning For Adult Life – Guardianship Matters

Why Guardianship Matters to You

In New Jersey, the age of majority is 18. This means that by this time an individual is presumed capable of making decisions as well as taking legal responsibility for those decisions. This law does not change if a child has a developmental disability. Parents do not automatically remain their child's natural guardian. For some adults who are incapable of making decisions, guardianship may be an avenue for parents, family members, or caregiver to ensure/determine their best interest. Obtaining guardianship is an extensive process and should not be taken lightly. Guardianship entails making decisions about where a person lives, what care and supervision is required, how to interact with the medical community and if the person is deemed incapable of making decisions, they will lose rights to vote, to drive, and to marry. Only a judge can decide a person's abilities and incapacitates and considers the person's needs before appointing a guardian. An assessment is done on the individual to measure their capacity for self-determination or skills in making decisions for themselves.

There are varying degrees of guardianship:

Full Guardianship

States that the individual cannot make decision on their own behalf. This allows for the Guardian to make all legal, financial, personal, and medical decisions for the individual.

Limited Guardianship

States that the individual may need some help in certain areas. This allows for the Guardian to help only in the areas determined by the court.

Conservator

States that the individual is not incapable of making decisions however, requires assistance in financial responsibilities. If an individual is capable of understanding what they are signing, there are options of assistance that does not require a judge. Surrogate a substitute or person to carry out a certain duty or role instead of the individual.

Representative Payee

Allows for an individual or organization to be appointed to manage the Social Security and SSI for someone who cannot manage his or her money. A payee must use the benefits to pay for the current and foreseeable needs of the beneficiary and properly save any benefits not needed to meet current needs. Helpful Link: www.ssa.gov/pubs/EN-05-10076.pdf

Dual Power of Attorney

Allows for an individual to choose a surrogate to make financial and legal decisions as well as access the persons records.

Medical Power of Attorney

Allows for an individual to choose a surrogate to make medical decisions and to access records.

Advanced Directive/ Living Will

This allows for the individual to choose a surrogate to make decisions on what medical/mental health treatments a person would accept or refuse if or when unable to communicate their choice.

Updated Guide to Selecting a Support Coordination

From The Boggs Center on Developmental Disabilities

Updated Guide to Selecting a Support Coordination Agency Now Available

The Boggs Center has updated *Selecting a Support Coordination Agency: Making Choices, Becoming Empowered*, a guide for people with disabilities to use with the support of family, friends, and others close to them when choosing the agency they receive support coordination services from.

[Download Resource](#)

The cover of the guide features the Rutgers logo and the title 'Selecting a Support Coordination Agency' in large white text on a blue background. Below the title, it says 'Making Choices, Becoming Empowered' and 'A Guide for People with Disabilities'. The cover includes three circular icons on the right side. Below the title, there are three photographs: two women sitting on a couch looking at a laptop, a man in a maroon shirt smiling, and a man in a grey tank top holding a tablet. At the bottom, there is a blue box with white text.

Selecting a Support Coordination Agency

Making Choices, Becoming Empowered
A Guide for People with Disabilities

People receiving support through NJ's Division of Developmental Disabilities are able to choose the agency they receive support coordination services from. The opportunity to do this can be empowering as people with disabilities and their families select an agency that they believe will do the best job helping them plan for and obtain the supports and services they need. This guide provides information and ideas that can help in the selection process.

We're Recruiting!

Children's Specialized Hospital's **Research Center** strives to advance pediatric rehabilitation by initiating and supporting evidence-based studies that explore innovative interventions, technologies and approaches to specialized care for children and adolescents. See below for details on one of our current studies.

Study: Characterizing Action-Control in Healthy Children

This research study aims to understand how healthy children control their behavior and choose their actions. It involves completing paper-and-pencil measures, computer-based games, and brain magnetic resonance imaging (MRI). No contrast/dyes or injections will be used in the study. Results from this branch of the study will be compared to patterns of learning in children with ADHD to characterize any learning deficits in this population.

Who's Eligible?

- Healthy children with no prior medical diagnoses.
- Children between the ages of 6 and 10.
- Must be able to speak English well.
- Ability to play a computer- based game.
- Capable of undergoing an MRI scan (there will be a training session to make sure the child is able to undergo the actual MRI scan).

Participation in this study will include 2-3 visits to the following **Kessler Foundation** locations:

- 120 Eagle Rock Ave, Suite 100, East Hanover, NJ 07936
- 1199 Pleasant Valley Way, West Orange, NJ 07052

For more information, please contact:

Dr. Joman Y. Natsheh
Principal Investigator
973-391-7858, jnatsheh@kesslerfoundation.org

Michael Dacanay
Research Assistant
973-324-8453, mdacanay@kesslerfoundation.org

Participants will be compensated for their time and children who complete the MRI scan are eligible to receive a copy of the images and a certificate of completion.

[About Our Research Center](#)

Types of Medicaid Eligibility in NJ

TYPES OF MEDICAID ELIGIBILITY IN NJ

AGED, BLIND, OR DISABLED (ABD)

Supplemental Security Income (SSI) Medicaid

Provided automatically when a person with IDD is approved for SSI benefits. Apply for SSI at age 18 or above through your local SSA Office here: bit.ly/ssaooffices

Medicaid Only

For individuals with IDD who do not receive monthly SSI, but meet SSI income and resource limits. bit.ly/medicaidonly

NJ Workability

Offers healthcare to individuals with IDD ages 16-64 who are employed and whose income would disqualify them from other forms of Medicaid. bit.ly/njworkability

HOW TO GET IT

Apply for SSI at age 18
bit.ly/Apply4SSI
ABD Medicaid Application
bit.ly/ABDapplication

WHAT'S COVERED?

Doctor visits, prescriptions, x-rays, dental, lab testing, eyeglasses, mental health, hospitalization, specialist visits, hearing aids, Personal Care Assistant (PCA), Personal Preference Program (PPP)

For specific questions about Medicaid or the application process, contact Beverly Roberts at brobertsearchnj.org or 732-246-2567.

Disabled Adult Child (DAC)

For persons whose SSI ended because they received benefits from a parent who retired, became disabled, or died. Request for information (RFI) is for people who have DDD. bit.ly/dacmedicaid

New Jersey Care... Special Medicaid Program

For individuals with IDD with income below \$1,074/month. Contact your County Board of Social Services: bit.ly/njcbss

Long Term Services and Supports

Applies to younger individuals who need significant support, such as private-duty nursing, etc. bit.ly/longtermsupport

QUICK FACT

Medicaid is an entitlement-based program. Anyone who is determined eligible by the Medicaid Office has the right to receive Medicaid and its related services. Eligibility is not guaranteed.

NJ FAMILYCARE

- Also called Medicaid Expansion.
- Eligibility is based on income, not on the individual having a disability.
- The maximum monthly income limit increases each year.
- The maximum gross income for a single adult in 2021 is \$1,074/month.
- The individual cannot be listed as a dependent on their parent's tax return.
- The individual cannot receive Medicare.
- ABD is a better route if eligible.

HOW TO GET IT

Applicants must have financial eligibility.
NJ FamilyCare Quickstart
bit.ly/njfamilycare

QUICK FACT

Adults must have legal resident status for 5 years to be eligible. Children and pregnant women with legal resident status are eligible, regardless of length of residency.

WHAT'S COVERED?

Doctor visits, prescriptions, x-rays, dental, lab testing, eyeglasses, hospitalization, mental health, preventative screenings, regular checkups

Vaccinate to Keep Kids Healthy!

RUTGERS

New Jersey's Leadership Education in Neurodevelopmental and Related Disabilities Program

Vaccinate to Keep Kids Healthy!

Preventing disease is always better than treating it. Vaccines protect against diseases that once caused serious illness, disability, and death, including COVID-19. By using small amounts of antigens, or germs that cause the immune system to react, vaccines help your child's body recognize and learn to fight off serious and potentially deadly diseases. Following the **recommended immunization schedule** helps ensure that your child is protected from 14 diseases before the age of 2, such as:

- Polio
- Measles
- Whooping Cough
- Flu
- Mumps
- Chicken Pox

Did You Know?

Children with disabilities are at higher risk for vaccine-preventable illnesses. They may also have more significant illness, prolonged hospitalization, and greater risk of mortality. The American Academy of Pediatrics (AAP) suggests children with disabilities follow the CDC's immunization recommendations to promote optimal health.

Vaccine Facts

The CDC estimated that vaccination of children born between 1994 and 2018 prevented:

- 419 million illnesses
- 26.8 million hospitalizations
- 936,000 deaths

Questions or Concerns?

Vaccines are safe and effective. They are rigorously tested by research from top doctors, public health professionals, and scientists. Serious side effects are very rare. Your child's health care provider can answer any questions and share up-to-date information about all vaccines recommended to keep your child healthy, including COVID-19 vaccines and boosters.

<https://www.cdc.gov/vaccines/parents/index.html>

¡Vacunas para mantener a los niños sanos!

¡Vacunas Para mantener a los niños sanos!

Es mejor prevenir una enfermedad que tener que tratarla. Las vacunas protegen contra afecciones que, alguna vez, causaron enfermedades graves, discapacidad y muerte, incluida la COVID-19. Mediante el uso de pequeñas cantidades de antígenos o gérmenes que hacen que el sistema inmunitario reaccione, las vacunas ayudan a que el cuerpo de su hijo reconozca y aprenda a combatir enfermedades graves y potencialmente mortales. Seguir el **calendario de vacunación recomendado** ayuda a garantizar que su hijo esté protegido contra 14 enfermedades antes de cumplir los 2 años, incluidas las siguientes:

- Polio
- Measles
- Whooping Cough
- Flu
- Mumps
- Chicken Pox

¿Sabía que...?

Los niños con discapacidades tienen un mayor riesgo de contraer enfermedades que se pueden prevenir con vacunas. Además, pueden tener una enfermedad más importante, una hospitalización prolongada y un mayor riesgo de mortalidad. La American Academy of Pediatrics sugiere que los niños con discapacidades sigan las recomendaciones de vacunación de los Centers for Disease Control and Prevention a fin de promover una salud óptima.

Datos sobre las vacunas

Los CDC estimaron que las vacunas de los niños nacidos entre 1994 y 2018 evitaron:

- 419 millones de enfermedades
- 26.8 millones de hospitalizaciones
- 936,000 muertes

¿Tiene Preguntas o inquietudes?

Las vacunas son seguras y efectivas. Están rigurosamente probadas por investigaciones de los mejores médicos, profesionales de la salud pública y científicos. Los efectos secundarios graves son muy poco frecuentes. El proveedor de atención médica de su hijo puede responder cualquier pregunta y compartir información actualizada sobre todas las vacunas recomendadas para mantener a su hijo saludable, incluidas las vacunas y los refuerzos contra la COVID-19.

Obtenga más información de los CDC sobre las vacunas para su hijo:
