Opportunity is yours at

Newark Beth Israel Medical Center

Welcome to Newark Beth Israel Medical Center

First established in 1901, Newark Beth Israel Medical Center is a 665-bed quaternary care, teaching hospital that provides comprehensive health care for the region. As part of RWJBarnabas Health, the largest healthcare delivery system in the state, Newark Beth Israel Medical Center is committed to advancing the overall health of our diverse populations and treating everyone with respect and dignity while appreciating and embracing the differences as well as the similarities that exist among us.

Newark Beth Israel is home to one of the nation's 10 largest heart transplant centers, RWJBarnabas Health's Heart Failure Treatment and Transplant Program; New Jersey's only Advanced Lung Disease and Transplant Program; and a Valve Center that performs more cardiac valve procedures, including minimally invasive transcatheter aortic valve replacements (TAVRs), than any other center in the state. As a premier healthcare provider for children throughout New Jersey, Children's Hospital of New Jersey at Newark Beth Israel Medical Center (CHoNJ) offers specialized treatment for pediatric patients. The Frederick B. Cohen Cancer and Blood Disorders Center and the Healthcare Foundation of New Jersey Breast Health Center provide seamless integration of cancer prevention, specialized care, and treatment options.

Pharmacy Department Mission and Vision

Getting the right drug, to the right patient, at the right time, SAFELY.

The Department of Pharmacy supports the mission and goals of Newark Beth Israel Medical Center and Children's Hospital of New Jersey through its commitment to being an integral member of the healthcare team. We are a progressive leader by providing our community with innovative and efficient pharmaceutical services across the continuum of care resulting in optimal clinical outcomes where teaching, healing, and preventative medicine integrate.

Pharmacy Residency Program

There are two ASHP Accredited PGY1 positions available at Newark Beth Israel Medical Center.

Core Learning Rotations

- Critical Care
- Emergency Medicine
- Infectious Diseases
- Internal Medicine
- Orientation
- Pediatrics
- Solid Organ Transplantation

Longitudinal Rotations

- Administration
- Drug Information and Education
- Pharmacy Practice
- Research

Elective Rotations

- Cardiology / Cardiothoracic Intensive Care
- Pharmacy Informatics
- Level II of any core rotation

Off-Site Elective Opportunities

- Ambulatory Care
- Behavioral Health
- Corporate Clinical Pharmacy Administration

Unique Opportunities

- **RWJBarnabas Health Pharmacy Residency Leadership Forum:** A forum designed for PGY1 and PGY2 pharmacy residents in the RWJBarnabas Health System to develop the essential skills of a clinical leader and collaborate to advance the profession and practice of pharmacy in alignment with the Pharmacy Enterprise Strategic Plan.
- **Teaching and Learning Certificate Program:** Residents will participate in a teaching certificate program offered with the Ernest Mario School of Pharmacy at Rutgers University. The program will strengthen the resident's knowledge and skills in presenting lectures and precepting students.
- **Precepting Pharmacy Students:** NBIMC accepts APPE and IPPE students from several colleges of pharmacy.
