

STAY INFORMED AND EMPOWER CHANGE: YOUR IMPACT AT A GLANCE

Thank you, Robert Wood Johnson University Hospital supporters!

Your generosity fuels progress and changes lives. See our “Impact at a Glance” for how your gifts directly support leading-edge care for patients. Together, we’re advancing medicine for our community.

Donor Investment in Action: Transforming Cancer Care, Together

Thanks to incredible donor generosity, Robert Wood Johnson University Hospital (RWJUH) and Rutgers Cancer Institute are making a groundbreaking difference in New Jersey. **The Jack and Sheryl Morris Cancer Center, New Jersey’s first freestanding cancer hospital** opening in 2025, exemplifies our commitment to exceptional care, powered by donor support.

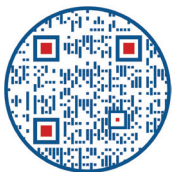

Did you know 1 in 8 women will be diagnosed with breast cancer in her lifetime? We’re bringing advanced treatments

close to home, conducting cutting-edge research, and creating an exceptional patient experience, including a dedicated **Image Renewal Boutique in the soon to be opened Jack and Sheryl Morris Cancer Center**. This boutique offers support services like garment and wig fittings, massage therapy, and manicures/pedicures. And with the added support from our 36th Annual Golf Classic, we raised a record-breaking \$604,750 to help fund vital breast cancer care and support to patients.

Closer to Home, Closer to Hope: Advanced Treatments for New Jersey Children at RWJUH

The Bristol-Myers Squibb Children’s Hospital (BMSCH) and Rutgers Cancer Institute launched a new program offering advanced treatments for children with cancer and blood disorders. This includes stem cell transplantation, gene therapy, and immunotherapy. **Thanks to donor support, BMSCH renovated a patient room to provide a positive pressure environment with filtered air, minimizing infection risk during stem cell transplants necessary for these treatments.**

R | RUTGERS HEALTH
Rutgers Cancer Institute

Let’s beat cancer together.

Rutgers Cancer Institute is the state’s only NCI-designated Comprehensive Cancer Center. Together RWJBarnabas Health and Rutgers Cancer Institute offer the most advanced cancer treatment options close to home.

WE MADE AN IMPACT TOGETHER.

Equipping Expert Surgical Teams for Complex Cases through Donor Support

Donor generosity has fueled significant advancements in RWJUH's surgical care. Our supporters have helped us bring together clinicians across specialties to tackle the most challenging surgical cases. **Plus, the opening of private Pre/Post-Surgical Services bays will offer enhanced patient comfort and recovery.**

This goes beyond surgery — your gifts enable teams to review procedures and train future surgeons, ensuring lasting benefits for patients.

The impact is real: Nearly 3,000 surgical patients benefitted in just three months! With your continued support, we can keep pushing boundaries and saving lives.

Invest in Excellence: Support RWJUH Nurses

Donor support allows us to provide advanced training and education for our dedicated nurses and Clinical Care Technicians (CCTs). **This year our donors funded scholarships for three nurses pursuing advanced degrees, scholarships for four clinical care technicians (CCTs), and covered the cost for 54 nurses to attend crucial nursing conferences.** This ensures that our teams stay at the forefront of medical knowledge and hone their clinical skills, translating to the highest quality care for all our patients. **Your support fuels this culture of excellence.**

Your Gifts Heal: How You Help Kids in Need

New Jersey's Largest Child Life Program at The Bristol-Myers Squibb Children's Hospital at RWJUH goes beyond medicine. Donations equip us with life-changing technology. Donor support provided calming music for young patients during MRI scans, leading to **1,300+ better diagnoses and faster treatment!** In addition, thanks to donor generosity in attaining an Arctic Sun System, we can precisely control body temperature for pediatric stroke and trauma patients, significantly increasing their chances of full recovery. **Six young lives have already been touched thanks to our supporters!**
